

Meeting Agenda
CEAS Curriculum Committee
Date: 20 Sept 2016; Time: 10 AM
Room: EMS E371

1) Announcements

2) Automatic Consent

Approval of Sept 6, 2016 meeting minutes

3) EE 335, Electronics II, (U); course description change

4) Computer Science: Advancement to Major (See attachment on following page)

5) Other business

6) Adjournment

Computer Science, Advance to Major.

The following was taken from the April 22, 2016 CompSci faculty meeting minutes:

Our current requirements for advancement to major are (1) incorrect in that they require Math 232 and (2) too restrictive under the proposed (but delayed) new budget model. There was discussion about whether we should retain English competency and CEAS 200 (Professional Seminar) as requirements. It was moved and seconded (Goyal/McRoy) to change our advancement to major requirements to be:

- (a) Math Placement A
- (b) Complete CompSci 251 with a C or better grade.
- (c) Satisfy the GER English composition requirement.
- (d) Cumulative GPA as set by department. ^a

^{a)} Initially set to 2.5

The motion passed on a voice vote.
