**RESEARCH NARRATIVE**

My research concerns human ecology, past and present, as viewed through the lens of anthropology. Methodologically I use archaeology and ethnoarchaeology, with a special focus on the analysis of ancient animal (zooarchaeological) remains. My research applies a comparative approach, emphasizing societies reliant upon fishing and hunting and active for some period during the last 10,000 years. Themes of special interest are ecological sustainability and social transitions from more egalitarian to less egalitarian political systems.

**EDUCATION**

- Ph.D.** Anthropology, University of California, Santa Barbara (1990)  
"Advancing Methods in Zooarchaeology: An Ethnoarchaeological Study among the Aka Pygmies"
- B.A.** Interdisciplinary: Anthropology/Biology/Geology, Evergreen State College, Olympia, Washington.

**PROFESSIONAL EXPERIENCE**

- 2006 - present **Associate Professor.** Department of Anthropology, University of Wisconsin - Milwaukee
- 1999 - 2006 **Assistant Professor.** Department of Anthropology, University of Wisconsin - Milwaukee
- 1997 - 1999 **Lecturer.** Department of Sociology & Anthropology, California State University, Bakersfield
- 1995 - 1997 **Visiting Assistant Professor.** Dept. of Anthropology, University of California, Los Angeles
- 1992 - 1995 **Director, Zooarchaeology Laboratory.** Institute of Archaeology, U. of California, Los Angeles
- 1990 - 1991 **Visiting Scholar.** Center for Archaeological Investigations, Southern Illinois University, Carbondale, Illinois (post-doctoral research fellowship, organization of conference).

#### **TEACHING EXPERIENCE**

##### Courses Taught: Lower Division, Undergraduate

Introduction to Physical Anthropology / Human Origins (UCSB, UWM)  
Introduction to Archaeology / Approaches to Archaeology: Digging the Past (UCLA, CSB, UWM); also online  
Introduction to Cultural Anthropology (CSB)  
Freshman Seminar: Egalitarian Societies; When Cooperation Yields a Competitive Edge (UWM)

##### Courses Taught: Upper Division, Undergraduate/Graduate

World Civilizations (CSB, UWM); also online  
Archaeology of Central & South America (UWM); also online  
Culture and Human Ecology (CSB, UWM)  
Hunter-Gatherer Lifeways: Past & Present (UCSB, UWM)

##### Courses Taught: Applied Field and Lab, Undergraduate/Graduate

Archaeological Field School (UCLA)  
Archaeological Laboratory Techniques (UCLA, CSB)  
Bones for the Archaeologist / Zooarchaeology: Method & Theory (UCLA, CSB, UWM)  
Ethnoarchaeology and Experimental Archaeology (UWM)  
Study Abroad: Ancient People and Animals of Peru (UWM)

##### Courses Taught: Graduate Seminar

Advanced Seminar: Coastal Adaptations (UCLA)  
Advanced Seminar: Ecological Perspectives (UWM)  
Advanced Seminar: Environmental Archaeology (UWM)  
Advanced Seminar: Ethnoarchaeology (UCLA, UWM)

##### Special Programs for UWM Undergraduates

2000-2002 McNair summer program (prepares under-represented students for graduate work)  
2001-2007 UROP Program (places undergraduates in applied research projects for the academic year)

##### Experimental Archaeology Working Group

2003-present In collaboration with departmental colleagues Bettina Arnold and Robert Jeske, designed to provide UWM students with opportunities to design and participate in experimental projects that involve faculty, graduate students and undergraduates.

**OTHER EXPERIENCE: FIELD AND LABORATORY EXPERIENCE** (selected items)

- 2005 **Co-PI and Field Lab Director:** Preliminary data collection for Tahitian Taboo Project, Moorea, French Polynesia. Responsible for development of lab protocols and student training. The larger project to which these data will contribute is designed as an international collaboration with colleagues in French Polynesia and Canada. It integrates ethnographic, linguistic and archaeological research on dietary taboos with modern environmental health research on the risks and benefits of dietary fish. Co-PI is John Dellinger, UWM Clinical Laboratory Sciences.
- 2001, 03, 04 **Principal Investigator:** Peruvian Reed Boat Ethnoarchaeology Project, Huanchaco, Peru. Research design and field data collection and analysis. This on-going project documents the modern practices of making reed boats and conducting daily subsistence fishing from them and from shore. Archaeological evidence suggests the reed boats represent a local tradition of several thousand years. Quantitative data on labor costs and nutritional gains are combined with interview and participant observation to better understand the social dynamics of non-motorized artisanal fishing and its implications for local archaeological models.
- 2002 **Program Director** for “Ancient Peoples and Animals of Peru,” a UWM Winterim Study Abroad Program. Responsible for 12 students during 3 weeks of travel and museum training and research at Museo Contisuyo, Moquegua, Peru. Designed program of study and managed logistics abroad.
- 1999 - present **Zooarchaeology Lab Director**, Archaeological Research Lab, U.Wisconsin-Milwaukee. The lab serves educational and research purposes. The current comparative osteological collection includes over a hundred specimens representing Wisconsin mammals, birds, fish, and reptiles, and continues to expand. Facilities include both wet lab and dry labs, with prep and curation areas.
- 1994 - present **Principal Zooarchaeologist.** Preceramic Project, Ilo, Peru. Analysis of over 100,000 specimens of bone from two Preceramic sites in the coastal area of southern Peru (Villa del Mar and Kilometer 4); the Project PI, Karen Wise (NHMLAC), has included the data in her publications on the sites. A comparative collection was created in collaboration with Karen Rasmussen and Susan deFrance and is archived at the regional museum in Moquegua, Museo Contisuyo.
- 1994, 96, 97 **Field School Director.** Instruction in field techniques for graduates and undergraduates, including research design, survey and mapping, excavation, laboratory analysis, and report. Field school sites in Los Angeles and Santa Barbara counties, California.
- 1986 - 1987 **Principal Investigator:** Ethnoarchaeological field research in the Central African Republic, including training local French-speaking crew and organizing remote location logistics. The project was designed to record daily hunting life and the resulting patterns of zooarchaeological remains in modern foragers’ residential camps, using participant-observation and subsequent excavation. Publications have focused on spatial patterning, food sharing, and bone quantification.
- 1985 - 1986 **Curation and Records: Assistant Coordinator** for the Central Coast Information Center in Santa Barbara, a regional office of the California Archeological Site Survey, State Historic Preservation Office. Preparation of record searches for environmental impact assessments, maintenance of archives for Santa Barbara and San Luis Obispo counties, supervision of access.

- 1981 - present **Zooarchaeological Consultant.** Identification, data analysis, and report preparation for vertebrate remains from over 50 projects, including four large regional projects in coastal California integrating results from multiple sites. Analysis of collections from North America, MesoAmerica, Latin America, Europe, and Africa.
- 1978-1979 **Oral History Assistant.** Collection of interview data, review of historic archives for the Hoh Tribe, Hoh Reservation, Washington.
- 1974-1984 **Field archaeologist, survey and excavation.** Projects included:  
Upper Delaware Valley Early Man Project in Pennsylvania w/American University (1974)  
Trinity River Basin Survey in Texas w/Southern Methodist University (1975)  
American Camp excavations in Washington w/University of Idaho (1976)  
Dolores Project in Colorado w/Washington State University (1979)  
Chumash survey and excavation projects w/University of California, Santa Barbara (1980-1983)  
Henauhof Mesolithic excavations in Germany w/ University of California, Santa Barbara (1984)
