

Burial lot #5139 was located in area H with the coordinates in the NW corner of the coffin N364'9" E136'0". The elevation at the base of the coffin in the NW corner was 727.38 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5139 were recovered: slag fragments.

Burial lot #5140 was located in area H with the coordinates in the NW corner of the coffin N367'3" E144'3". The elevation at the base of the coffin in the NW corner was 727.58 famsl. The 6 sided adult coffin (75" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5140 were recovered: cinder fragments.

Burial lot #5141 was located in area H with the coordinates in the NW corner of the coffin N363'7" E144'6". The elevation at the base of the coffin in the NW corner was 727.39 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5141 were recovered: buttons.

Burial lot #5142 was located in area H with the coordinates in the NW corner of the coffin N355'0" E143'10". The elevation at the base of the coffin in the NW corner was 727.33 famsl. The 6 sided adult coffin (73" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5142 were recovered: safety pins and a gold ring.

Burial lot #5143 was located in area H with the coordinates in the NW corner of the coffin N358'6" E152'0". The elevation at the base of the coffin in the NW corner was 727.01 famsl. The 6 sided adult coffin (78" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5143 were recovered.

Burial lot #5144 was located in area H with the coordinates in the NW corner of the coffin N358'6" E152'0". The elevation at the base of the coffin in the NW corner was 727.55 famsl. The 6 sided adult coffin (78" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5144 were recovered.

Burial lot #5145 was located in area H with the coordinates in the NW corner of the coffin N366'9" E151'10". The elevation at the base of the coffin in the NW corner was 727.04 famsl. The 6 sided adult coffin (73" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5145 were recovered: safety pins.

Burial lot #5146 was located in area H with the coordinates in the NW corner of the coffin N366'7" E160'0". The elevation at the base of the coffin in the NW corner was 727.20 famsl. The 6 sided adult coffin (63" x 26") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5146 were recovered: safety pins.

Burial lot #5147 was located in area H with the coordinates in the NW corner of the coffin N363'3" E160'1". The elevation at the base of the coffin in the NW corner was 727.45 famsl. The 6 sided adult coffin (78" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5147 were recovered: a copper buckle.

Burial lot #5148 was located in area H with the coordinates in the NW corner of the coffin N357'10" E160'3". The elevation at the base of the coffin in the NW corner was 727.24 famsl. The 6 sided adult coffin (79" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5148 were recovered: safety pins.

Burial lot #5149 was located in area H with the coordinates in the NW corner of the coffin N357'6" E168'1". The elevation at the base of the coffin in the NW corner was 727.43 famsl. The 6 sided adult coffin (73" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5149 were recovered.

Burial lot #5150 was located in area H with the coordinates in the NW corner of the coffin N361'1" E168'7". The elevation at the base of the coffin in the NW corner was 727.25 famsl. The 6 sided adult coffin (78" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5150 were recovered: safety pins.

Burial lot #5151 was located in area H with the coordinates in the NW corner of the coffin N366'5" E168'5". The elevation at the base of the coffin in the NW corner was 727.55 famsl. The 6 sided adult coffin (77" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5151 were recovered.

Burial lot #5152 was located in area H with the coordinates in the NW corner of the coffin N357'7" E176'7". The elevation at the base of the coffin in the NW corner was 727.22 famsl. The 6 sided adult coffin (71" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5152 were recovered.

Burial lot #5153 was located in area H with the coordinates in the NW corner of the coffin N361'4" E176'7". The elevation at the base of the coffin in the NW corner was 727.30 famsl. The 6 sided adult coffin (80" x 23") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5153 were recovered.

Burial lot #5154 was located in area H with the coordinates in the NW corner of the coffin N365'9" E176'10". The elevation at the base of the coffin in the NW corner was 727.52 famsl. The 6 sided adult coffin (74" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5154 were recovered.

Burial lot #5155 was located in area H with the coordinates in the NW corner of the coffin N355'0" E144'1". The elevation at the base of the coffin in the NW corner was 727.39 famsl. The 6 sided adult coffin (79" x 23") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5155 were recovered.

Burial lot #5156 was located in area H with the coordinates in the NW corner of the coffin N355'0" E144'1". The elevation at the base of the coffin in the NW corner was 730.73 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5156 were recovered.

Burial lot #5157 was located in area H with the coordinates in the NW corner of the coffin N300'8" E58'6". The elevation at the base of the coffin in the NW corner was 730.93 famsl. The sub-adult coffin (54" x 9") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5157 were recovered.

Burial lot #5158 was located in area H with the coordinates in the NW corner of the coffin N293'6" E47'3". The elevation at the base of the coffin in the NW corner was 730.60 famsl. The coffin (of indeterminate size and shape) contained the remains of 1 individual of indeterminate age. The primary individual was in an unknown position within the coffin. The following grave goods for burial lot #5158 were recovered: a button.

Burial lot #5159 was located in area H with the coordinates in the NW corner of the coffin N290'9" E46'7". The elevation at the base of the coffin in the NW corner was 730.73 famsl. The 6 sided adult coffin (20" x indeterminate length) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave good for burial lot #5159 were recovered: a button.

Burial lot #5161 was located in area H with the coordinates in the NW corner of the coffin N305'6" E48'3". The elevation at the base of the coffin in the NW corner was 731.11 famsl. The 6 sided adult coffin (70" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5161 were recovered.

Burial lot #5162 was located in area H with the coordinates in the NW corner of the coffin N308'7" E49'9". The elevation at the base of the coffin in the NW corner was 731.09 famsl. The 6 sided adult coffin (72" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5162 were recovered: 5 buttons and a glass fragment.

Burial lot #5163 was located in area H with the coordinates in the NW corner of the coffin N312'3" E49'0". The elevation at the base of the coffin in the NW corner was 730.99 famsl. The 6 sided adult coffin (18" x indeterminate length) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5163 were recovered: dentures.

Burial lot #5164 was located in area H with the coordinates in the NW corner of the coffin N316'4" E48'7". The elevation at the base of the coffin in the NW corner was 730.68 famsl. The 6 sided adult coffin (17" x indeterminate length) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5164 were recovered: safety pins.

Burial lot #5165 was located in area H with the coordinates in the NW corner of the coffin N360'6" E49'6". The elevation at the base of the coffin in the NW corner was 730.68 famsl. The 6 sided adult coffin (18" x indeterminate length) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5165 were recovered.

Burial lot #5166 was located in area H with the coordinates in the NW corner of the coffin N324'7" E49'6". The elevation at the base of the coffin in the NW corner was 731.16 famsl. The 6 sided adult coffin (21" x indeterminate length) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5166 were recovered.

Burial lot #5167 was located in area H with the coordinates in the NW corner of the coffin N328'3" E50'0". The elevation at the base of the coffin in the NW corner was 730.78 famsl. The 6 sided adult coffin (17" x indeterminate length) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5167 were recovered.

Burial lot #5168 was located in area H with the coordinates in the NW corner of the coffin N331'3" E49'8". The elevation at the base of the coffin in the NW corner was 730.76 famsl. The 6 sided adult coffin (19" x indeterminate length) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5168 were recovered: glass fragments.

Burial lot #5169 was located in area H with the coordinates in the NW corner of the coffin N331'2" E42'2". The elevation at the base of the coffin in the NW corner was 730.90 famsl. The 6 sided adult coffin (74" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5169 were recovered.

Burial lot #5170 was located in area H with the coordinates in the NW corner of the coffin N328'9" E51'6". The elevation at the base of the coffin in the NW corner was 730.63 famsl. The 6 sided adult coffin (71" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5170 were recovered.

Burial lot #5171 was located in area H with the coordinates in the NW corner of the coffin N324'3" E41'10". The elevation at the base of the coffin in the NW corner was 730.96 famsl. The coffin was heavily disturbed, thus indeterminate dimensions. No bone of the primary individual was present. No grave goods for burial lot #5171 were recovered.

Burial lot #5172 was located in area H with the coordinates in the NW corner of the coffin N321'9" E39'8". The elevation at the base of the coffin in the NW corner was 730.68 famsl. The coffin was heavily disturbed by trenching activity. No skeletal elements of the primary individual were remaining. No grave goods for burial lot #5172 were recovered.

Burial lot #5173 was located in area H with the coordinates in the NW corner of the coffin N316'6" E41'3". The elevation at the base of the coffin in the NW corner was 731.05 famsl. The 6 sided adult coffin (63" x 15") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5173 were recovered.

Burial lot #5174 was located in area H with the coordinates in the NW corner of the coffin N313'0" E40'9". The elevation at the base of the coffin in the NW corner was 731.53 famsl. The 6 sided adult coffin (66" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5174 were recovered: safety pin fragments.

Burial lot #5175 was located in area H with the coordinates in the NW corner of the coffin N308'5" E39'7". The elevation at the base of the coffin in the NW corner was 731.24 famsl. The 6 sided adult coffin (74" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5175 were recovered.

Burial lot #5176 was located in area H with the coordinates in the NW corner of the coffin N305'5" E40'10". The elevation at the base of the coffin in the NW corner was 731.57 famsl. The 6 sided adult coffin (22" x indeterminate length due to trenching activity) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5176 were recovered: glass fragments.

Burial lot #5177 was located in area H with the coordinates in the NW corner of the coffin N308'10" E32'0". The elevation at the base of the coffin in the NW corner was 731.81 famsl. The 6 sided adult coffin (67" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5177 were recovered: cloth fragments.

Burial lot #5178 was located in area H with the coordinates in the NW corner of the coffin N313'8" E31'10". The elevation at the base of the coffin in the NW corner was 731.76 famsl. The 6 sided adult coffin (74" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5178 were recovered: a burial I.D. tag and copper fragments.

Burial lot #5179 was located in area H with the coordinates in the NW corner of the coffin N317'1" E33'3". The elevation at the base of the coffin in the NW corner was 731.75 famsl. The 6 sided adult coffin (19" x indeterminate length due to trenching activity) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5179 were recovered.

Burial lot #5180 was located in area H with the coordinates in the NW corner of the coffin N314'0" E23'0". The elevation at the base of the coffin in the NW corner was 732.68 famsl. The 6 sided adult coffin (75" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5180 were recovered.

Burial lot #5182 was located in area H with the coordinates in the NW corner of the coffin N323'4" E66'6". The elevation at the base of the coffin in the NW corner was 729.65 famsl. The adult coffin (of indeterminate dimensions due to trenching activity) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5182 were recovered.

Burial lot #5185 was located in area H with the coordinates in the NW corner of the coffin N348'3" E36'6". The elevation at the base of the coffin in the NW corner was 731.38 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5185 were recovered: a copper burial tag and a fragment of white material.

Burial lot #5186 was located in area H with the coordinates in the NW corner of the coffin N335'0" E50'8". The elevation at the base of the coffin in the NW corner was 730.09 famsl. The 6 sided adult coffin (70" x 15") contained the remains of 1 individual, but was disturbed by power line. The primary individual was face up with the head to the west facing east (determinable even though skull missing). No grave goods for burial lot #5186 were recovered.

Burial lot #5187 was located in area H with the coordinates in the NW corner of the coffin N339'10" E51'0". The elevation at the base of the coffin in the NW corner was 730.05 famsl. The 6 sided adult coffin (78" x 18") contained the remains of 1 individual, but was disturbed by power line. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5187 were recovered.

Burial lot #5188 was located in area H with the coordinates in the NW corner of the coffin N343'7" E52'2". The elevation at the base of the coffin in the NW corner was 730.31 famsl. The 6 sided adult coffin (71" x by indeterminate width due to trenching activity) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5188 were recovered.

Burial lot #5189 was located in area H with the coordinates in the NW corner of the coffin N347'2" E54'9". The elevation at the base of the coffin in the NW corner was 729.85 famsl. The adult coffin (20" x indeterminate length due to trenching) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5189 were recovered.

Burial lot #5190 was located in area H with the coordinates in the NW corner of the coffin N351'3" E54'6". The elevation at the base of the coffin in the NW corner was 731.07 famsl. The adult coffin (18" x indeterminate length due to trenching) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5190 were recovered.

Burial lot #5191 was located in area H with the coordinates in the NW corner of the coffin N355'4" E54'6". The elevation at the base of the coffin in the NW corner was 730.62 famsl. The adult coffin (18" x indeterminate length due to trenching) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5191 were recovered.

Burial lot #5192 was located in area H with the coordinates in the NW corner of the coffin N365'11" E48'3". The elevation at the base of the coffin in the NW corner was 731.36 famsl. The coffin was heavily disturbed by two trenches. No skeletal elements remaining, and no coffin dimensions obtainable. No grave goods for burial lot #5192 were recovered.

Burial lot #5193 was located in area H with the coordinates in the NW corner of the coffin N362'8" E44'11". The elevation at the base of the coffin in the NW corner was 731.17 famsl. The 6 sided coffin (74" x 15") was disturbed by a trench cutting through the middle and contained the remains of 1 individual. The primary individual was in an indeterminate position within the coffin, and sex and age of the individual is indeterminate.. No grave goods for burial lot #5193 were recovered.

Burial lot #5194 was located in area H with the coordinates in the NW corner of the coffin N359'2" E44'10". The elevation at the base of the coffin in the NW corner was 728.48 famsl. The coffin (77" x 17") contained the remains of 1 individual, but a trench cutting through the middle of the coffin made shape and sex and age of individual indeterminate. The primary individual was in an indeterminate position within the coffin. No grave goods for burial lot #5194 were recovered.

Burial lot #5195 was located in area H with the coordinates in the NW corner of the coffin N355'2" E44'9". The elevation at the base of the coffin in the NW corner was 731.81 famsl. The coffin (80" x 21") was disturbed by a trench cutting through the middle, and only very small amount of skeletal elements remaining. No grave goods for burial lot #5195 were recovered.

Burial lot #5196 was located in area H with the coordinates in the NW corner of the coffin N351'5" E45'0". The elevation at the base of the coffin in the NW corner was 731.64 famsl. The 6 sided coffin (72" x 17") contained the remains of 1 individual. The primary individual is of indeterminate age and sex as trenching left little skeletal remains. No grave goods for burial lot #5196 were recovered.

Burial lot #5197 was located in area H with the coordinates in the NW corner of the coffin W347'4" E49'0". The elevation at the base of the coffin in the NW corner was 730.76 famsl. The coffin was heavily disturbed by trenching activity and the primary individual is of indeterminate age and sex. Position within the coffin is unknown. No grave goods for burial lot #5197 were recovered.

Burial lot #5198 was located in area H with the coordinates in the NW corner of the coffin N343'9" E43'9". The elevation at the base of the coffin in the NW corner was 730.89 famsl. The 6 sided adult coffin (72" x indeterminate width due to trench disturbance) contained the remains of 1 individual of indeterminate sex, age, and position within the coffin. No grave goods for burial lot #5198 were recovered.

Burial lot #5199 was located in area H with the coordinates in the NW corner of the coffin N341'2" E46'7". The elevation at the base of the coffin in the NW corner was 730.76 famsl. The coffin contained no skeletal elements as it was heavily disturbed by trenching activity. No grave goods for burial lot #5199 were recovered.

Burial lot #5200 was located in area H with the coordinates in the NW corner of the coffin N325'0" E32'10". The elevation at the base of the coffin in the NW corner was 731.51 famsl. The 6 sided coffin was disturbed at both ends by trenches, and contained the remains of 1 individual. Minimal skeletal elements remained, so the primary individual was of indeterminate sex, age, and position within the coffin. No grave goods for burial lot #5200 were recovered.

Burial lot #5201 was located in area H with the coordinates in the NW corner of the coffin N329'0" E33'4". The elevation at the base of the coffin in the NW corner was 731.65 famsl. The 6 sided adult coffin (73" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5201 were recovered.

Burial lot #5202 was located in area H with the coordinates in the NW corner of the coffin N332'3" E33'4". The elevation at the base of the coffin in the NW corner was 731.75 famsl. The 6 sided adult coffin (74" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5202 were recovered.

Burial lot #5203 was located in area H with the coordinates in the NW corner of the coffin N336'8" E24'1". The elevation at the base of the coffin in the NW corner was 731.74 famsl. The 6 sided adult coffin (68" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5203 were recovered: safety pin.

Burial lot #5204 was located in area H with the coordinates in the NW corner of the coffin N341'4" E35'7". The elevation at the base of the coffin in the NW corner was 731.40 famsl. The 6 sided adult coffin (78" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5204 were recovered: safety pin fragments.

Burial lot #5205 was located in area H with the coordinates in the NW corner of the coffin N344'3" E37'4". The elevation at the base of the coffin in the NW corner was 730.96 famsl. The 6 sided adult coffin (of indeterminate size and shape due to trenching activity) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5206 were recovered.

Burial lot #5206 was located in area H with the coordinates in the NW corner of the coffin N351'9" E36'11". The elevation at the base of the coffin in the NW corner was 731.80 famsl. The 6 sided adult coffin (72" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5206 were recovered.

Burial lot #5207 was located in area H with the coordinates in the NW corner of the coffin N355'10" E36'10". The elevation at the base of the coffin in the NW corner was 731.41 famsl. The 6 sided adult coffin (72" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5207 were recovered: safety pin fragments.

Burial lot #5208 was located in area H with the coordinates in the NW corner of the coffin N359'5" E38'3". The elevation at the base of the coffin in the NW corner was 731.72 famsl. The 6 sided adult coffin (76" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5208 were recovered: 2 earrings, 3 rings, safety pin fragments, and a bead.

Burial lot #5209 was located in area H with the coordinates in the NW corner of the coffin N363'0" E37'3". The elevation at the base of the coffin in the NW corner was 731.82 famsl. The 6 sided adult coffin (76" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5209 were recovered.

Burial lot #5210 was located in area H with the coordinates in the NW corner of the coffin N366'6" E37'6". The elevation at the base of the coffin in the NW corner was 731.65 famsl. The 6 sided adult coffin (73" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5210 were recovered.

Burial lot #5211 was located in area H with the coordinates in the NW corner of the coffin N367'3" E32'3". The elevation at the base of the coffin in the NW corner was 732.04 famsl. The adult coffin (heavily disturbed by trenching) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5211 were recovered: safety pin fragments.

Burial lot #5212 was located in area H with the coordinates in the NW corner of the coffin N363'9" E29'3". The elevation at the base of the coffin in the NW corner was 731.25 famsl. The 6 sided adult coffin (72" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5212 were recovered.

Burial lot #5213 was located in area H with the coordinates in the NW corner of the coffin N359'6" E28'6". The elevation at the base of the coffin in the NW corner was 732.36 famsl. The 6 sided adult coffin (78" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5214 were recovered.

Burial lot #5214 was located in area H with the coordinates in the NW corner of the coffin N356'9" E28'9". The elevation at the base of the coffin in the NW corner was 732.11 famsl. The 6 sided adult coffin (69" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5214 were recovered.

Burial lot #5215 was located in area H with the coordinates in the NW corner of the coffin N351'9" E27'10". The elevation at the base of the coffin in the NW corner was 732.62 famsl. The 6 sided adult coffin (17" x indeterminate length due to trench disturbance) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5215 were recovered.

Burial lot #5216 was located in area H with the coordinates in the NW corner of the coffin N348'9" E47'3". The elevation at the base of the coffin in the NW corner was 731.96 famsl. The coffin (heavily disturbed) contained the remains of 1 individual of indeterminate age and sex as only a very small amount of bone remained. The primary individual was in an indeterminate position within the coffin. No grave goods for burial lot #5216 were recovered.

Burial lot #5217 was located in area H with the coordinates in the NW corner of the coffin N345'0" E27'6". The elevation at the base of the coffin in the NW corner was 732.34 famsl. The 6 sided adult coffin (77" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5217 were recovered.

Burial lot #5218 was located in area H with the coordinates in the NW corner of the coffin N341'0" E26'9". The elevation at the base of the coffin in the NW corner was 732.41 famsl. The 6 sided adult coffin (75" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5218 were recovered.

Burial lot #5219 was located in area H with the coordinates in the NW corner of the coffin N336'10" E25'9". The elevation at the base of the coffin in the NW corner was 732.45 famsl. The 6 sided adult coffin (72" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5219 were recovered.

Burial lot #5220 was located in area H with the coordinates in the NW corner of the coffin N333'3" E25'2". The elevation at the base of the coffin in the NW corner was 732.16 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5220 were recovered.

Burial lot #5221 was located in area H with the coordinates in the NW corner of the coffin N329'4" E24'6". The elevation at the base of the coffin in the NW corner was 731.82 famsl. The 6 sided adult coffin (71" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5221 were recovered.

Burial lot #5222 was located in area H with the coordinates in the NW corner of the coffin N317'9" E23'3". The elevation at the base of the coffin in the NW corner was 732.16 famsl. The coffin (17" x indeterminate length due to backhoe and road disturbance) contained the remains of 1 individual. The skeletal elements were of indeterminate sex, age, and position within the coffin. No grave goods for burial lot #5222 were recovered.

Burial lot #5223 was located in area H with the coordinates in the NW corner of the coffin N341'6" E9'1". The elevation at the base of the coffin in the NW corner was 732.55 famsl. The adult coffin (of indeterminate size and shape) contained the remains of 1 individual. The primary individual was in an indeterminate position within the coffin. The following grave goods for burial lot #5223 were recovered: a button.

Burial lot #5224 was located in area H with the coordinates in the NW corner of the coffin N345'9" E19'6". The elevation at the base of the coffin in the NW corner was 732.41 famsl. The 6 sided adult coffin (72" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5224 were recovered.

Burial lot #5226 was located in area H with the coordinates in the NW corner of the coffin N356'9" E23'2". The elevation at the base of the coffin in the NW corner was 732.08 famsl. The adult coffin (18" x indeterminate length due to disturbance) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5226 were recovered.

Burial lot #5227 was located in area H with the coordinates in the NW corner of the coffin N360'6" E22'3". The elevation at the base of the coffin in the NW corner was 732.45 famsl. The indeterminately sided coffin (20" x an indeterminate length due to disturbance) contained the minimal remains of 1 individual. The primary individual was in an unknown position within the coffin. No grave goods for burial lot #5227 were recovered.

Burial lot #5228 was located in area H with the coordinates in the NW corner of the coffin N364'1" E23'6". The elevation at the base of the coffin in the NW corner was 732.39 famsl. The adult coffin was heavily disturbed but still contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5228 were recovered.

Burial lot #5229 was located in area H with the coordinates in the NW corner of the coffin N364'3" E12'3". The elevation at the base of the coffin in the NW corner was 732.81 famsl. The 6 sided adult coffin (80" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5229 were recovered.

Burial lot #5230 was located in area H with the coordinates in the NW corner of the coffin N361'0" E12'0". The elevation at the base of the coffin in the NW corner was 733.30 famsl. The 6 sided adult coffin (71" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5230 were recovered.

Burial lot #5231 was located in area H with the coordinates in the NW corner of the coffin N356'4" E12'2". The elevation at the base of the coffin in the NW corner was 733.50 famsl. The coffin was heavily disturbed and of indeterminate dimensions. No skeletal elements were remaining. No grave goods for burial lot #5231 were recovered.

Burial lot #5232 was located in area H with the coordinates in the NW corner of the coffin N352'6" E11'11". The elevation at the base of the coffin in the NW corner was 733.19 famsl. The coffin was heavily disturbed and contained only minimal remains of 1 individual. The primary individual was in an indeterminate position within the coffin. The following grave goods for burial lot #5232 were recovered: glass fragments.

Burial lot #5233 was located in area H with the coordinates in the NW corner of the coffin N353'0" E3'4". The elevation at the base of the coffin in the NW corner was 733.52 famsl. The 6 sided adult coffin (76" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5233 were recovered.

Burial lot #5234 was located in area H with the coordinates in the NW corner of the coffin N357'6" E4'1". The elevation at the base of the coffin in the NW corner was 733.38 famsl. The 6 sided adult coffin (74" x 14") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5234 were recovered: safety pin fragments.

Burial lot #5235 was located in area H with the coordinates in the NW corner of the coffin N360'9" E3'2". The elevation at the base of the coffin in the NW corner was 733.49 famsl. The 6 sided adult coffin (82" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5235 were recovered.

Burial lot #5236 was located in area H with the coordinates in the NW corner of the coffin N364'2" E4'6". The elevation at the base of the coffin in the NW corner was 733.41 famsl. The 6 sided adult coffin (70" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5236 were recovered: safety pins.

Burial lot #5237 was located in area H with the coordinates in the NW corner of the coffin N365'3" W3'6". The elevation at the base of the coffin in the NW corner was 733.62 famsl. The 6 sided adult coffin (72" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5237 were recovered.

Burial lot #5238 was located in area H with the coordinates in the NW corner of the coffin N361'5" W4'0". The elevation at the base of the coffin in the NW corner was 733.80 famsl. The 6 sided adult coffin (67" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #5238 were recovered: safety pin fragments.

Burial lot #5239 was located in area H with the coordinates in the NW corner of the coffin N356'9" W1'8". The elevation at the base of the coffin in the NW corner was 733.64 famsl. The coffin was heavily disturbed and dimensions of coffin are indeterminate. Few skeletal elements remained. Age and sex were indeterminate, as well as position within the coffin. The following grave goods for burial lot #5239 were recovered: safety pin fragments.

Burial lot #5240 was located in area H with the coordinates in the NW corner of the coffin N354'0" W3'10". The elevation at the base of the coffin in the NW corner was 734.42 famsl. The coffin was heavily disturbed by past road and trench construction. The primary individual was of indeterminate age, sex, and position within the coffin. No grave goods for burial lot #5240 were recovered.

Burial lot #5243 was located in area H with the coordinates in the NW corner of the coffin N365'3" W12'3". The elevation at the base of the coffin in the NW corner was 733.72 famsl. The 6 sided adult coffin (72" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5243 were recovered.

Burial lot #5248 was located in area H with the coordinates in the NW corner of the coffin N358'4" W13'0". The elevation at the base of the coffin in the NW corner was 734.48 famsl. The 6 sided coffin (18" x indeterminate length) was disturbed by a trench and contained the remains of 1 individual of indeterminate age, sex, and position within the coffin. The following grave goods for burial lot #5248 were recovered: safety pin fragments.

Burial lot #5250 was located in area H with the coordinates in the NW corner of the coffin N353'0" W10'11". The elevation at the base of the coffin in the NW corner was 734.57 famsl. The coffin was heavily disturbed by road and trench construction. Minimal remains of 1 individual were present, but were of indeterminate sex, age, and position within the coffin. No grave goods for burial lot #5250 were recovered.

Burial lot #5251 was located in area H with the coordinates in the NW corner of the coffin N349'3" E54'9". The elevation at the base of the coffin in the NW corner was 732.56 famsl. The coffin was disturbed by a trench making dimensions of the coffin and age, sex, and position of burial indeterminate. No grave goods for burial lot #5251 were recovered.

Burial lot #5252 was located in area H with the coordinates in the NW corner of the coffin N345'4" E14'2". The elevation at the base of the coffin in the NW corner was 732.84 famsl. The indeterminately sided adult coffin was heavily disturbed by trenching activity. The remains of 1 individual were present, but not enough to determine age, sex, or position within the coffin. No grave goods for burial lot #5252 were recovered.

Burial lot #5253 was located in area H with the coordinates in the NW corner of the coffin N341'3" E10'0". The elevation at the base of the coffin in the NW corner was 732.71 famsl. The indeterminately sided adult coffin was disturbed by a trench and the remains of 1 individual were only partial. The primary individual was placed with the head to the west facing east. No grave goods for burial lot #5253 were recovered.

Burial lot #5254 was located in area H with the coordinates in the NW corner of the coffin N336'9" E17'5". The elevation at the base of the coffin in the NW corner was 732.74 famsl. The 6 sided adult coffin (67" x an indeterminate width) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5254 were recovered.

Burial lot #5255 was located in area H with the coordinates in the NW corner of the coffin N337'1" E8'9". The elevation at the base of the coffin in the NW corner was 732.89 famsl. The 8 sided coffin (85" x 15"), which was disturbed by a trench, contained the remains of 1 individual of indeterminate sex and age. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5255 were recovered.

Burial lot #5256 was located in area H with the coordinates in the NW corner of the coffin N333'6" E16'9". The elevation at the base of the coffin in the NW corner was 733.05 famsl. The 6 sided adult coffin (of indeterminate size and shape) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5256 were recovered.

Burial lot #5257 was located in area H with the coordinates in the NW corner of the coffin N329'9" E15'6". The elevation at the base of the coffin in the NW corner was 732.84 famsl. The 6 sided adult coffin (78" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5257 were recovered.

Burial lot #5258 was located in area H with the coordinates in the NW corner of the coffin N349'0" E6'6". The elevation at the base of the coffin in the NW corner was 733.32 famsl. The coffin was disturbed and dimensions were not obtainable. Minimal remains of 1 individual were present, but were of indeterminate sex and age. The primary individual was face up with the head to the west facing east. No grave goods for burial lot #5258 were recovered.

Burial lot #6000 was located in area J with the coordinates in the NW corner of the coffin N101'5" W136'0". The elevation at the base of the coffin in the NW corner was 743.49 famsl. The 4 sided sub-adult coffin (28" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6000 were recovered: cloth, safety pins, and a rosary. A wooden burial marker with a copper tag in lot #6291 are also associated with this lot.

Burial lot #6001 was located in area J with the coordinates in the NW corner of the coffin N98'0" W136'5". The elevation at the base of the coffin in the NW corner was 743.08 famsl. The 4 sided sub-adult coffin (24" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6001 were recovered.

Burial lot #6002 was located in area J with the coordinates in the NW corner of the coffin N96'2" W136'8". The elevation at the base of the coffin in the NW corner was 743.20 famsl. The 4 sided sub-adult coffin (28" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6002 were recovered: cloth, yarn, and safety pins.

Burial lot #6003 was located in area J with the coordinates in the NW corner of the coffin N93'11" W136'7". The elevation at the base of the coffin in the NW corner was 742.88 famsl. The 4 sided sub-adult coffin (23" x 9") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6003 were recovered.

Burial lot #6004 was located in area J with the coordinates in the NW corner of the coffin N79'7" W136'0". The elevation at the base of the coffin in the NW corner was 742.99 famsl. The 4 sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6004 were recovered.

Burial lot #6005 was located in area J with the coordinates in the NW corner of the coffin N82'0" W136'7". The elevation at the base of the coffin in the NW corner was 742.76 famsl. The 4 sided sub-adult coffin (27" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6005 were recovered: safety pin, cloth, glass fragments, and a spike.

Burial lot #6006 was located in area J with the coordinates in the NW corner of the coffin N85'3" W136'8". The elevation at the base of the coffin in the NW corner was 742.60 famsl. The 4 sided sub-adult coffin (27" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6006 were recovered.

Burial lot #6007 was located in area J with the coordinates in the NW corner of the coffin N78'8" W136'1". The elevation at the base of the coffin in the NW corner was 741.05 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. An additional primary burial (lot #6286) was found below lot #6007. No grave goods for lot #6007 or #6286 were recovered.

Burial lot #6008 was located in area J with the coordinates in the NW corner of the coffin N75'7" W135'11". The elevation at the base of the coffin in the NW corner was 741.13 famsl. The 4 sided sub-adult coffin (22" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6008 were recovered.

Burial lot #6009 was located in area J with the coordinates in the NW corner of the coffin N73'2" W135'9". The elevation at the base of the coffin in the NW corner was 740.79 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6009 were recovered: safety pin fragments.

Burial lot #6010 was located in area J with the coordinates in the NW corner of the coffin N70'10" W136'1". The elevation at the base of the coffin in the NW corner was 740.03 famsl. The 4 sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6010 were recovered.

Burial lot #6011 was located in area J with the coordinates in the NW corner of the coffin N68'6" W136'5". The elevation at the base of the coffin in the NW corner was 739.82 famsl. The 4 sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6011 were recovered.

Burial lot #6012 was located in area J with the coordinates in the NW corner of the coffin N68'7" W131'5". The elevation at the base of the coffin in the NW corner was 740.13 famsl. The 4 sided sub-adult coffin (24" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6012 were recovered.

Burial lot #6013 was located in area J with the coordinates in the NW corner of the coffin N71'6" W131'0". The elevation at the base of the coffin in the NW corner was 740.84 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6013 were recovered: buttons, a buckle, and a safety pin.

Burial lot #6014 was located in area J with the coordinates in the NW corner of the coffin N73'11" W131'0". The elevation at the base of the coffin in the NW corner was 741.41 famsl. The 4 sided sub-adult coffin (23" x 6") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6014 were recovered: safety pin fragments and buttons.

Burial lot #6015 was located in area J with the coordinates in the NW corner of the coffin N76'3" W131'3". The elevation at the base of the coffin in the NW corner was 740.84 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6015 were recovered.

Burial lot #6016 was located in area J with the coordinates in the NW corner of the coffin N78'5" W131'3". The elevation at the base of the coffin in the NW corner was 741.33 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6016 were recovered.

Burial lot #6017 was located in area J with the coordinates in the NW corner of the coffin N85'1" W133'2". The elevation at the base of the coffin in the NW corner was 742.42 famsl. The 4 sided sub-adult coffin (32" x 9") contained the remains of 1 individual. The primary individual was placed head to the west face up. No grave goods for lot #6017 were recovered.

Burial lot #6018 was located in area J with the coordinates in the NW corner of the coffin N88'4" W133'3". The elevation at the base of the coffin in the NW corner was 742.79 famsl. The 4 sided sub-adult coffin (21" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6018 were recovered.

Burial lot #6019 was located in area J with the coordinates in the NW corner of the coffin N90'6" W132'8". The elevation at the base of the coffin in the NW corner was 742.86 famsl. The 4 sided sub-adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6019 were recovered: cloth and safety pins.

Burial lot #6020 was located in area J with the coordinates in the NW corner of the coffin N93'6" W132'7". The elevation at the base of the coffin in the NW corner was 742.93 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6020 were recovered: a leather boot and safety pin fragments.

Burial lot #6021 was located in area J with the coordinates in the NW corner of the coffin N95'11" W132'5". The elevation at the base of the coffin in the NW corner was 743.02 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6021 were recovered.

Burial lot #6022 was located in area J with the coordinates in the NW corner of the coffin N98'9" W132'2". The elevation at the base of the coffin in the NW corner was 743.41 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed head to the west ,face up within the coffin. No grave goods for lot #6022 were recovered.

Burial lot #6023 was located in area J with the coordinates in the NW corner of the coffin N101'6" W132'0". The elevation at the base of the coffin in the NW corner was 743.46 famsl. The 4 sided sub-adult coffin (24" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6023 were recovered.

Burial lot #6024 was located in area J with the coordinates in the NW corner of the coffin N101'6" W127'9". The elevation at the base of the coffin in the NW corner was 743.16 famsl. The 4 sided sub-adult coffin (22" x 7") contained the remains of 1 individual. The primary individual was placed head to the west , face up within the coffin. No grave goods for lot #6024 were recovered.

Burial lot #6025 was located in area J with the coordinates in the NW corner of the coffin N98'9" W127'6". The elevation at the base of the coffin in the NW corner was 743.44 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed head to the west , face up within the coffin. No grave goods for lot #6025 were recovered.

Burial lot #6026 was located in area J with the coordinates in the NW corner of the coffin N95'10" W128'2". The elevation at the base of the coffin in the NW corner was 743.15 famsl. The 4 sided sub-adult coffin (23" x 9") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6026 were recovered: cloth and newspaper fragments.

Burial lot #6027 was located in area J with the coordinates in the NW corner of the coffin N93'2" W129'2". The elevation at the base of the coffin in the NW corner was not recorded. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6027 were recovered: safety pins and cloth.

Burial lot #6028 was located in area J with the coordinates in the NW corner of the coffin N90'9" W127'9". The elevation at the base of the coffin in the NW corner was 743.17 famsl. The 4 sided sub-adult coffin (26" x 10") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6028 were recovered.

Burial lot #6029 was located in area J with the coordinates in the NW corner of the coffin N88'0" W127'8". The elevation at the base of the coffin in the NW corner was 742.80 famsl. The 4 sided sub-adult coffin (20" x 12") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6029 were recovered.

Burial lot #6030 was located in area J with the coordinates in the NW corner of the coffin N85'2" W128'3". The elevation at the base of the coffin in the NW corner was 742.49 famsl. The 4 sided sub-adult coffin (20" x 8") contained the remains of 1 individual. The primary individual was placed head to the west and face up within the coffin. No grave goods for lot #6030 were recovered.

Burial lot #6031 was located in area J with the coordinates in the NW corner of the coffin N69'1" W126'0". The elevation at the base of the coffin in the NW corner was 740.39 famsl. The 4 sided sub-adult coffin (31" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6031 were recovered: safety pins and cloth.

Burial lot #6032 was located in area J with the coordinates in the NW corner of the coffin N74'3" W126'6". The elevation at the base of the coffin in the NW corner was 741.65 famsl. The 4 sided sub-adult coffin (23" x 6") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. No grave goods for lot #6032 were recovered.

Burial lot #6033 was located in area J with the coordinates in the NW corner of the coffin N78'6" W126'0". The elevation at the base of the coffin in the NW corner was 741.19 famsl. The 4 sided sub-adult coffin (18" x 9") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6033 were recovered.

Burial lot #6034 was located in area J with the coordinates in the NW corner of the coffin N85'3" W124'3". The elevation at the base of the coffin in the NW corner was 742.32 famsl. The 4 sided sub-adult coffin (25" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6034 were recovered: safety pins and cloth.

Burial lot #6035 was located in area J with the coordinates in the NW corner of the coffin N87'5" W123'10". The elevation at the base of the coffin in the NW corner was 742.91 famsl. The 4 sided sub-adult coffin (27" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6035 were recovered: safety pin fragments.

Burial lot #6036 was located in area J with the coordinates in the NW corner of the coffin N90'9" W123'7". The elevation at the base of the coffin in the NW corner was 742.97 famsl. The 4 sided sub-adult coffin (26" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6036 were recovered.

Burial lot #6037 was located in area J with the coordinates in the NW corner of the coffin N93'4" W123'10". The elevation at the base of the coffin in the NW corner was 742.95 famsl. The 4 sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6037 were recovered.

Burial lot #6038 was located in area J with the coordinates in the NW corner of the coffin N95'8" W123'6". The elevation at the base of the coffin in the NW corner was 743.24 famsl. The 4 sided sub-adult coffin (22" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6038 were recovered.

Burial lot #6039 was located in area J with the coordinates in the NW corner of the coffin N88'3" W123'6". The elevation at the base of the coffin in the NW corner was 743.31 famsl. The 4 sided sub-adult coffin (22" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6039 were recovered: safety pin fragments.

Burial lot #6040 was located in area J with the coordinates in the NW corner of the coffin N101'8" W123'5". The elevation at the base of the coffin in the NW corner was not recorded by excavator. The 4 sided sub-adult coffin (20" x 7") contained the remains of 1 individual. The primary individual was placed head to the west , face up within the coffin. The following grave goods for lot #6040 were recovered: safety pin fragments and cloth.

Burial lot #6041 was located in area J with the coordinates in the NW corner of the coffin N96'9" W118'7". The elevation at the base of the coffin in the NW corner was not recorded by excavator. The 4 sided sub-adult coffin (24" x 6") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6041 were recovered.

Burial lot #6042 was located in area J with the coordinates in the NW corner of the coffin N95'5" W123'6". The elevation at the base of the coffin in the NW corner was 743.49 famsl. The 4 sided sub-adult coffin (21" x 9") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6042 were recovered.

Burial lot #6043 was located in area J with the coordinates in the NW corner of the coffin N96'0" W119'2". The elevation at the base of the coffin in the NW corner was 743.49 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6043 were recovered.

Burial lot #6044 was located in area J with the coordinates in the NW corner of the coffin N94'10" W118'5". The elevation at the base of the coffin in the NW corner was 743.11 famsl. The 4 sided sub-adult coffin (26" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6044 were recovered.

Burial lot #6045 was located in area J with the coordinates in the NW corner of the coffin N90'8" W119'4". The elevation at the base of the coffin in the NW corner was 743.13 famsl. The 4 sided sub-adult coffin (22" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6045 were recovered.

Burial lot #6046 was located in area J with the coordinates in the NW corner of the coffin N87'9" W119'9". The elevation at the base of the coffin in the NW corner was 742.97 famsl. The 4 sided sub-adult coffin (22" x 6") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6046 were recovered: shell fragments.

Burial lot #6047 was located in area J with the coordinates in the NW corner of the coffin N85'3" W119'5". The elevation at the base of the coffin in the NW corner was 742.53 famsl. The 4 sided sub-adult coffin (24" x 9") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. No grave goods for lot #6047 were recovered.

Burial lot #6048 was located in area J with the coordinates in the NW corner of the coffin N116'10" W76'6". The elevation at the base of the coffin in the NW corner was 741.47 famsl. The 4 sided sub-adult coffin (22" x 7") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. No grave goods for lot #6048 were recovered.

Burial lot #6049 was located in area J with the coordinates in the NW corner of the coffin N74'6" W120'9". The elevation at the base of the coffin in the NW corner was 743.02 famsl. The 4 sided sub-adult coffin (21" x 8") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. No grave goods for lot #6049 were recovered.

Burial lot #6050 was located in area J with the coordinates in the NW corner of the coffin N69'3" W121'0". The elevation at the base of the coffin in the NW corner was 741.22 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6050 were recovered.

Burial lot #6051 was located in area J with the coordinates in the NW corner of the coffin N71'3" W116'6". The elevation at the base of the coffin in the NW corner was 740.74 famsl. The 4 sided sub-adult coffin (22" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6051 were recovered.

Burial lot #6052 was located in area J with the coordinates in the NW corner of the coffin N74'8" W116'0". The elevation at the base of the coffin in the NW corner was 741.50 famsl. The 4 sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed head to the west , face up within the coffin. The following grave goods for lot #6052 were recovered: buttons and a gold ring.

Burial lot #6053 was located in area J with the coordinates in the NW corner of the coffin N78'2" W116'11". The elevation at the base of the coffin in the NW corner was 741.70 famsl. The 4 sided sub-adult coffin (22" x 6") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6053 were recovered: buttons, safety pin, and a fragmented diaper.

Burial lot #6054 was located in area J with the coordinates in the NW corner of the coffin N85'4" W114'8". The elevation at the base of the coffin in the NW corner was 742.57 famsl. The 4 sided sub-adult coffin (22" x 6") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6054 were recovered: safety pin fragments attached to cloth.

Burial lot #6055 was located in area J with the coordinates in the NW corner of the coffin N87'7" W115'0". The elevation at the base of the coffin in the NW corner was 743.02 famsl. The 4 sided sub-adult coffin (27" x 9") contained the remains of 1 individual. The primary individual was placed head to the west , face up within the coffin. No grave goods for lot #6055 were recovered.

Burial lot #6056 was located in area J with the coordinates in the NW corner of the coffin N89'10" W114'9". The elevation at the base of the coffin in the NW corner was 742.96 famsl. The 4 sided sub-adult coffin (22" x 6") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. No grave goods for lot #6056 were recovered.

Burial lot #6057 was located in area J with the coordinates in the NW corner of the coffin N93'5" W115'1". The elevation at the base of the coffin in the NW corner was 743.03 famsl. The 4 sided sub-adult coffin (26" x 6") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6057 were recovered: safety pin fragments and cloth.

Burial lot #6058 was located in area J with the coordinates in the NW corner of the coffin N96'0" W114'0". The elevation at the base of the coffin in the NW corner was 743.10 famsl. The 4 sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6058 were recovered: safety pins and cloth.

Burial lot #6059 was located in area J with the coordinates in the NW corner of the coffin N98'3" W114'11". The elevation at the base of the coffin in the NW corner was 743.42 famsl. The 4 sided sub-adult coffin (27" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6059 were recovered: newspaper fragments.

Burial lot #6060 was located in area J with the coordinates in the NW corner of the coffin N99'9" W114'0". The elevation at the base of the coffin in the NW corner was 743.25 famsl. The 4 sided sub-adult coffin (21" x 6") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. No grave goods for lot #6060 were recovered.

Burial lot #6061 was located in area J with the coordinates in the NW corner of the coffin N85'8" W110'0". The elevation at the base of the coffin in the NW corner was 742.59 famsl. The indeterminately sided sub-adult coffin was disturbed by a trench and contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6061 were recovered.

Burial lot #6062 was located in area J with the coordinates in the NW corner of the coffin N72'1" W107'9". The elevation at the base of the coffin in the NW corner was 741.09 famsl. The 4 sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6062 were recovered: safety pin fragments.

Burial lot #6063 was located in area J with the coordinates in the NW corner of the coffin N85'3" W81'6". The elevation at the base of the coffin in the NW corner was 742.59 famsl. The 4 sided sub-adult coffin (24" x 7") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6063 were recovered: safety pin fragments.

Burial lot #6064 was located in area J with the coordinates in the NW corner of the coffin N88'0" W106'10". The elevation at the base of the coffin in the NW corner was 741.09 famsl. The 4 sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave good for lot #6064 were recovered: a button.

Burial lot #6065 was located in area J with the coordinates in the NW corner of the coffin N90'5" W106'1". The elevation at the base of the coffin in the NW corner was 742.48 famsl. The 4 sided sub-adult coffin (22" x 5") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6065 were recovered: safety pin fragments.

Burial lot #6066 was located in area J with the coordinates in the NW corner of the coffin N93'6" W106'2". The elevation at the base of the coffin in the NW corner was 742.94 famsl. The 4 sided sub-adult coffin (24" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6066 were recovered.

Burial lot #6067 was located in area J with the coordinates in the NW corner of the coffin N95'11" W105'10". The elevation at the base of the coffin in the NW corner was 743.04 famsl. The 4 sided sub-adult coffin (disturbed leaving dimensions indeterminate) contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6067 were recovered: a button and safety pin fragments.

Burial lot #6068 was located in area J with the coordinates in the NW corner of the coffin N98'5" W105'6". The elevation at the base of the coffin in the NW corner was 743.21 famsl. The 4 sided sub-adult coffin (26" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6068 were recovered.

Burial lot #6069 was located in area J with the coordinates in the NW corner of the coffin N95'8" W101'9". The elevation at the base of the coffin in the NW corner was 742.35 famsl. The sub-adult coffin (heavily disturbed leaving dimensions indeterminate) contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6069 were recovered: safety pin fragments.

Burial lot #6070 was located in area J with the coordinates in the NW corner of the coffin N93'3" W102'0". The elevation at the base of the coffin in the NW corner was 742.98 famsl. The 4 sided sub-adult coffin (27" x 9") contained the remains of 1 individual. The primary individual was placed head to the west , face up within the coffin. The following grave goods for lot #6070 were recovered: safety pin fragments and cloth.

Burial lot #6071 was located in area J with the coordinates in the NW corner of the coffin N90'5" W102'1". The elevation at the base of the coffin in the NW corner was 742.89 famsl. The 4 sided sub-adult coffin (19" x 8") contained the remains of 1 individual. The primary individual was placed head to the west , face up within the coffin. No grave goods for lot #6071 were recovered.

Burial lot #6072 was located in area J with the coordinates in the NW corner of the coffin N87'7" W101'7". The elevation at the base of the coffin in the NW corner was 740.77 famsl. The sub-adult coffin (heavily disturbed leaving dimensions indeterminate) contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6072 were recovered.

Burial lot #6073 was located in area J with the coordinates in the NW corner of the coffin N85'0" W101'10". The elevation at the base of the coffin in the NW corner was 742.55 famsl. The 4 sided sub-adult coffin (21" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6073 were recovered: cloth and a safety pin.

Burial lot #6074 was located in area J with the coordinates in the NW corner of the coffin N82'0" W102'7". The elevation at the base of the coffin in the NW corner was 741.85 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6074 were recovered: safety pin fragments, buttons, and cloth.

Burial lot #6075 was located in area J with the coordinates in the NW corner of the coffin N74'8" W103'0". The elevation at the base of the coffin in the NW corner was 739.59 famsl. The 4 sided sub-adult coffin (26" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6075 were recovered.

Burial lot #6076 was located in area J with the coordinates in the NW corner of the coffin N68'4" W96'10". The elevation at the base of the coffin in the NW corner was 740.75 famsl. The 4 sided sub-adult coffin (32" x 6") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6076 were recovered: safety pin fragments and buttons.

Burial lot #6077 was located in area J with the coordinates in the NW corner of the coffin N71'6" W98'2". The elevation at the base of the coffin in the NW corner was 741.27 famsl. The 4 sided sub-adult coffin (30" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6077 were recovered: a button and safety pin fragments.

Burial lot #6078 was located in area J with the coordinates in the NW corner of the coffin N74'6" W98'3". The elevation at the base of the coffin in the NW corner was 741.60 famsl. The 6 sided sub-adult coffin (31" x 11") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6078 were recovered: safety pins and buttons.

Burial lot #6079 was located in area J with the coordinates in the NW corner of the coffin N77'5" W98'3". The elevation at the base of the coffin in the NW corner was 742.41 famsl. The 4 sided sub-adult coffin (20" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6079 were recovered: buttons, safety pins, and cloth.

Burial lot #6080 was located in area J with the coordinates in the NW corner of the coffin N77'3" W93'3". The elevation at the base of the coffin in the NW corner was 741.73 famsl. The 4 sided sub-adult coffin (24" x 9") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6080 were recovered: safety pin fragments and buttons.

Burial lot #6081 was located in area J with the coordinates in the NW corner of the coffin N74'2" W93'7". The elevation at the base of the coffin in the NW corner was 741.19 famsl. The 4 sided sub-adult coffin (26" x 7") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6081 were recovered: safety pins and a snap.

Burial lot #6082 was located in area J with the coordinates in the NW corner of the coffin N71'9" W92'6". The elevation at the base of the coffin in the NW corner was 741.43 famsl. The 4 sided sub-adult coffin (22" x 7") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. The following grave goods for lot #6082 were recovered: a safety pin and a pair of shoes with eyelets.

Burial lot #6083 was located in area J with the coordinates in the NW corner of the coffin N68'4" W93'4". The elevation at the base of the coffin in the NW corner was 741.01 famsl. The coffin was heavily disturbed and nothing was remaining of the coffin wood or the individual within. No grave goods for lot #6083 were recovered.

Burial lot #6084 was located in area J with the coordinates in the NW corner of the coffin N60'8" W135'9". The elevation at the base of the coffin in the NW corner was 739.30 famsl. The 4 sided sub-adult coffin (26" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6084 were recovered.

Burial lot #6085 was located in area J with the coordinates in the NW corner of the coffin N58'0" W135'9". The elevation at the base of the coffin in the NW corner was 739.69 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed head to the west , face up within the coffin. No grave goods for lot #6085 were recovered.

Burial lot #6086 was located in area J with the coordinates in the NW corner of the coffin N55'8" W135'9". The elevation at the base of the coffin in the NW corner was 739.06 famsl. The 4 sided sub-adult coffin (22" x 8") contained the remains of 1 individual. The primary individual was placed head to the west and face up within the coffin. No grave goods for lot #6086 were recovered.

Burial lot #6087 was located in area J with the coordinates in the NW corner of the coffin N52'9" W135'7". The elevation at the base of the coffin in the NW corner was 738.61 famsl. The 4 sided sub-adult coffin (22" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6087 were recovered.

Burial lot #6088 was located in area J with the coordinates in the NW corner of the coffin N50'6" W135'5". The elevation at the base of the coffin in the NW corner was 738.50 famsl. The 4 sided sub-adult coffin (21" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave good for lot #6088 was recovered: a safety pin.

Burial lot #6089 was located in area J with the coordinates in the NW corner of the coffin N41'0" W135'4". The elevation at the base of the coffin in the NW corner was 737.63 famsl. The 4 sided sub-adult coffin (31" x 12") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave good for lot #6089 was recovered: a safety pin.

Burial lot #6090 was located in area J with the coordinates in the NW corner of the coffin N38'0" W135'9". The elevation at the base of the coffin in the NW corner was 737.02 famsl. The 4 sided sub-adult coffin (27" x 7") contained the remains of 1 individual. The primary individual was placed head to the east in an indeterminate position within the coffin. The following grave goods for lot #6090 were recovered: cloth and glass.

Burial lot #6091 was located in area J with the coordinates in the NW corner of the coffin N34'10" W136'11". The elevation at the base of the coffin in the NW corner was 735.96 famsl. The 4 sided sub-adult coffin (26" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave good for lot #6091 was recovered: a button.

Burial lot #6093 was located in area J with the coordinates in the NW corner of the coffin N32'3" W136'3". The elevation at the base of the coffin in the NW corner was 735.74 famsl. The 4 sided sub-adult coffin (27" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6093 were recovered; safety pins, cloth, and tacks.

Burial lot #6094 was located in area J with the coordinates in the NW corner of the coffin N26'9" W136'3". The elevation at the base of the coffin in the NW corner was 736.48 famsl. The 4 sided sub-adult coffin (21" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6094 were recovered.

Burial lot #6095 was located in area J with the coordinates in the NW corner of the coffin N23'2" W137'3". The elevation at the base of the coffin in the NW corner was 735.33 famsl. The 4 sided sub-adult coffin (25" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6095 were recovered.

Burial lot #6096 was located in area J with the coordinates in the NW corner of the coffin N22'9" W132'7". The elevation at the base of the coffin in the NW corner was 735.72 famsl. The 4 sided sub-adult coffin (24" x 6") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6096 were recovered.

Burial lot #6097 was located in area J with the coordinates in the NW corner of the coffin N32'0" W132'10". The elevation at the base of the coffin in the NW corner was 735.70 famsl. The 4 sided sub-adult coffin (34" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6097 were recovered: buttons, safety pin, and cloth.

Burial lot #6098 was located in area J with the coordinates in the NW corner of the coffin N34'9" W140'6". The elevation at the base of the coffin in the NW corner was 735.87 famsl. The 4 sided sub-adult coffin (28" x 9") contained the remains of 1 individual. The primary individual was placed an indeterminate position within the coffin. No grave goods for lot #6098 were recovered.

Burial lot #6099 was located in area J with the coordinates in the NW corner of the coffin N38'0" W130'6". The elevation at the base of the coffin in the NW corner was 737.35 famsl. The 4 sided sub-adult coffin (27" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6099 were recovered.

Burial lot #6100 was located in area J with the coordinates in the NW corner of the coffin N40'10" W130'9". The elevation at the base of the coffin in the NW corner was 739.06 famsl. The 4 sided sub-adult coffin (22" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6100 were recovered.

Burial lot #6101 was located in area J with the coordinates in the NW corner of the coffin N46'6" W131'0". The elevation at the base of the coffin in the NW corner was 738.97 famsl. The 4 sided sub-adult coffin (38" x 10") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. No grave goods for lot #6101 were recovered.

Burial lot #6102 was located in area J with the coordinates in the NW corner of the coffin N49'5" W131'6". The elevation at the base of the coffin in the NW corner was 738.67 famsl. The 4 sided sub-adult coffin (21" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6102 were recovered.

Burial lot #6103 was located in area J with the coordinates in the NW corner of the coffin N60'4" W131'0". The elevation at the base of the coffin in the NW corner was 739.00 famsl. The 4 sided sub-adult coffin (21" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6103 were recovered.

Burial lot #6104 was located in area J with the coordinates in the NW corner of the coffin N60'4" W131'0". The elevation at the base of the coffin in the NW corner was 739.27 famsl. The 4 sided sub-adult coffin (23" x 6") contained the remains of 1 individual. The primary individual was placed head to the west , face up within the coffin. No grave goods for lot #6104 were recovered.

Burial lot #6105 was located in area J with the coordinates in the NW corner of the coffin N61'6" W126'0". The elevation at the base of the coffin in the NW corner was 740.06 famsl. The 4 sided sub-adult coffin (20" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6105 were recovered; cloth, buttons, and a safety pin.

Burial lot #6106 was located in area J with the coordinates in the NW corner of the coffin N59'9" W126'0". The elevation at the base of the coffin in the NW corner was 738.75 famsl. The 4 sided sub-adult coffin (24" x 10") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6106 were recovered: buttons.

Burial lot #6107 was located in area J with the coordinates in the NW corner of the coffin N51'8" W126'3". The elevation at the base of the coffin in the NW corner was 738.41 famsl. The 4 sided sub-adult coffin (26" x 11") contained the remains of 1 individual. The primary individual was placed head to the west, face up within the coffin. Lot #6107 is associated with lot #6125, **but only in the sense that the excavator mixed skeletal elements of both of these burials together.** The following grave goods for lot #6107 were recovered: buttons and safety pin fragments.

Burial lot #6108 was located in area J with the coordinates in the NW corner of the coffin N48'7" W125'9". The elevation at the base of the coffin in the NW corner was 738.02 famsl. The 4 sided sub-adult coffin (21" x 9") contained the remains of 1 individual. The primary individual was placed head to the west , face up within the coffin. No grave goods for lot #6108 were recovered.

Burial lot #6109 was located in area J with the coordinates in the NW corner of the coffin N46'1" W125'10". The elevation at the base of the coffin in the NW corner was 737.76 famsl. The 4 sided sub-adult coffin (22" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6109 were recovered.

Burial lot #6110 was located in area J with the coordinates in the NW corner of the coffin N43'6" W125'9". The elevation at the base of the coffin in the NW corner was 737.60 famsl. The 4 sided sub-adult coffin (26" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6110 were recovered.

Burial lot #6111 was located in area J with the coordinates in the NW corner of the coffin N41'0" W126'0". The elevation at the base of the coffin in the NW corner was 737.24 famsl. The 4 sided sub-adult coffin (23" x 10") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6111 were recovered: safety pins and cloth.

Burial lot #6112 was located in area J with the coordinates in the NW corner of the coffin N38'6" W125'7". The elevation at the base of the coffin in the NW corner was 737.06 famsl. The 4 sided sub-adult coffin (20" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave good for lot #6112 was recovered: a straight pin.

Burial lot #6113 was located in area J with the coordinates in the NW corner of the coffin N34'8" W128'2". The elevation at the base of the coffin in the NW corner was 736.14 famsl. The 6 sided sub-adult coffin (25" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6113 were recovered.

Burial lot #6114 was located in area J with the coordinates in the NW corner of the coffin N32'5" W127'6". The elevation at the base of the coffin in the NW corner was 735.75 famsl. The 4 sided sub-adult coffin (28" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6114 were recovered: buttons and safety pins.

Burial lot #6115 was located in area J with the coordinates in the NW corner of the coffin N28'9" W127'5". The elevation at the base of the coffin in the NW corner was 734.53 famsl. The 6 sided sub-adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6115 were recovered: safety pin fragments.

Burial lot #6116 was located in area J with the coordinates in the NW corner of the coffin N26'2" W127'5". The elevation at the base of the coffin in the NW corner was 735.07 famsl. The 4 sided sub-adult coffin (28" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6116 were recovered: a button, cloth, and stuffing.

Burial lot #6117 was located in area J with the coordinates in the NW corner of the coffin N22'3" W128'0". The elevation at the base of the coffin in the NW corner was 735.10 famsl. The 4 sided sub-adult coffin (33" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6117 were recovered: safety pin fragments and a flower pot.

Burial lot #6118 was located in area J with the coordinates in the NW corner of the coffin N18'6" W128'10". The elevation at the base of the coffin in the NW corner was 735.14 famsl. The 4 sided sub-adult coffin (28" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6118 were recovered: buttons.

Burial lot #6119 was located in area J with the coordinates in the NW corner of the coffin N18'11" W123'11". The elevation at the base of the coffin in the NW corner was 735.08 famsl. The 4 sided sub-adult coffin (26" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6119 were recovered: safety pin fragments.

Burial lot #6120 was located in area J with the coordinates in the NW corner of the coffin N21'8" W122'9". The elevation at the base of the coffin in the NW corner was 735.30 famsl. The 4 sided sub-adult coffin (30" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6120 were recovered.

Burial lot #6121 was located in area J with the coordinates in the NW corner of the coffin N25'6" W122'9". The elevation at the base of the coffin in the NW corner was 735.04 famsl. The 6 sided sub-adult coffin (18" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave good for lot #6121 was recovered: cloth.

Burial lot #6122 was located in area J with the coordinates in the NW corner of the coffin N28'10" W123'6". The elevation at the base of the coffin in the NW corner was 735.44 famsl. The indeterminately sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6122 were recovered: safety pin fragments.

Burial lot #6123 was located in area J with the coordinates in the NW corner of the coffin N34'10" W121'7". The elevation at the base of the coffin in the NW corner was 736.11 famsl. The 6 sided sub-adult coffin (22" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6123 were recovered: safety pin fragments.

Burial lot #6124 was located in area J with the coordinates in the NW corner of the coffin N38'2" W121'3". The elevation at the base of the coffin in the NW corner was 736.99 famsl. The 6 sided sub-adult coffin (22" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6124 were recovered: safety pin fragments.

Burial lot #6125 was located in area J with the coordinates in the NW corner of the coffin N40'9" W121'5". The elevation at the base of the coffin in the NW corner was 737.24 famsl. The 6 sided sub-adult coffin (26" x 9") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6125 were recovered.

Burial lot #6126 was located in area J with the coordinates in the NW corner of the coffin N44'0" W121'2". The elevation at the base of the coffin in the NW corner was 736.85 famsl. The 4 sided sub-adult coffin (22" x 7") contained the remains of 1 individual. The primary individual was placed head to the east in an indeterminate position within the coffin. No grave goods for lot #6126 were recovered.

Burial lot #6127 was located in area J with the coordinates in the NW corner of the coffin N47'2" W121'2". The elevation at the base of the coffin in the NW corner was 737.61 famsl. The 4 sided sub-adult coffin (24" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6127 were recovered.

Burial lot #6128 was located in area J with the coordinates in the NW corner of the coffin N49'7" W120'10". The elevation at the base of the coffin in the NW corner was 738.18 famsl. The indeterminately sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6128 were recovered.

Burial lot #6129 was located in area J with the coordinates in the NW corner of the coffin N51'11" W121'0". The elevation at the base of the coffin in the NW corner was 738.57 famsl. The 4 sided sub-adult coffin (31" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in a face up position within the coffin. The following grave goods for lot #6129 were recovered: a safety pin, buttons, and glass fragments.

Burial lot #6130 was located in area J with the coordinates in the NW corner of the coffin N59'6" W121'6". The elevation at the base of the coffin in the NW corner was 739.26 famsl. The 4 sided sub-adult coffin (31" x 9") contained the remains of 1 individual. The primary individual was placed head to the west in a face up position within the coffin. The following grave goods for lot #6130 were recovered: buttons.

Burial lot #6131 was located in area J with the coordinates in the NW corner of the coffin N61'4" W122'6". The elevation at the base of the coffin in the NW corner was 739.32 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in a face up position within the coffin. No grave goods for lot #6131 were recovered.

Burial lot #6132 was located in area J with the coordinates in the NW corner of the coffin N60'3" W117'5". The elevation at the base of the coffin in the NW corner was 739.64 famsl. The 4 sided sub-adult coffin (23" x 5") contained the remains of 1 individual. The primary individual was placed head to the west in a supine position within the coffin. No grave goods for lot #6132 were recovered.

Burial lot #6133 was located in area J with the coordinates in the NW corner of the coffin N58'0" W116'3". The elevation at the base of the coffin in the NW corner was 739.54 famsl. The 4 sided sub-adult coffin (22" x 6") contained the remains of 1 individual. The primary individual was placed head to the east in an indeterminate position within the coffin. No grave goods for lot #6133 were recovered.

Burial lot #6134 was located in area J with the coordinates in the NW corner of the coffin N55'7" W116'1". The elevation at the base of the coffin in the NW corner was 739.03 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. No grave goods for lot #6134 were recovered.

Burial lot #6135 was located in area J with the coordinates in the NW corner of the coffin N53'3" W115'9". The elevation at the base of the coffin in the NW corner was 738.98 famsl. The 6 sided sub-adult coffin (25" x 8") contained the remains of 1 individual. The primary individual was placed head to the east in an indeterminate position within the coffin. No grave goods for lot #6135 were recovered.

Burial lot #6136 was located in area J with the coordinates in the NW corner of the coffin N49'8" W115'0". The elevation at the base of the coffin in the NW corner was 738.16 famsl. The 4 sided sub-adult coffin (21" x 7") contained the remains of 1 individual. The primary individual was placed head to the west in a supine position within the coffin. No grave goods for lot #6136 were recovered.

Burial lot #6137 was located in area J with the coordinates in the NW corner of the coffin N48'0" W115'7". The elevation at the base of the coffin in the NW corner was 737.83 famsl. The 4 sided sub-adult coffin (24" x 9") contained the remains of 1 individual. The primary individual was in an indeterminate position within the coffin. The following grave goods for lot #6137 were recovered: tin can fragments.

Burial lot #6138 was located in area J with the coordinates in the NW corner of the coffin N45'5" W115'5". The elevation at the base of the coffin in the NW corner was 737.96 famsl. The 6 sided sub-adult coffin (35" x 10") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6138 were recovered: safety pin fragments, glass fragments, buttons, and cloth.

Burial lot #6139 was located in area J with the coordinates in the NW corner of the coffin N42'8" W115'6". The elevation at the base of the coffin in the NW corner was 737.14 famsl. The 6 sided sub-adult coffin (25" x 6") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6139 were recovered: a button, safety pin fragments, and cloth.

Burial lot #6140 was located in area J with the coordinates in the NW corner of the coffin N40'3" W115'5". The elevation at the base of the coffin in the NW corner was 736.91 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6140 were recovered.

Burial lot #6141 was located in area J with the coordinates in the NW corner of the coffin N27'7" W115'2". The elevation at the base of the coffin in the NW corner was 736.85 famsl. The 4 sided sub-adult coffin (26" x 9") contained the remains of 1 individual. The primary individual was placed head to the west in a face up position within the coffin. The following grave goods for lot #6141 were recovered: glass fragments, safety pins, and cloth.

Burial lot #6142 was located in area J with the coordinates in the NW corner of the coffin N34'8" W116'8". The elevation at the base of the coffin in the NW corner was 736.27 famsl. The 6 sided sub-adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6142 were recovered: safety pin fragments.

Burial lot #6143 was located in area J with the coordinates in the NW corner of the coffin N31'7" W118'0". The elevation at the base of the coffin in the NW corner was 736.39 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6066 were recovered: rubber fragments.

Burial lot #6144 was located in area J with the coordinates in the NW corner of the coffin N28'7" W118'6". The elevation at the base of the coffin in the NW corner was 735.38 famsl. The 6 sided sub-adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6144 were recovered.

Burial lot #6145 was located in area J with the coordinates in the NW corner of the coffin N24'11" W118'10". The elevation at the base of the coffin in the NW corner was 735.42 famsl. The 6 sided sub-adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6145 were recovered.

Burial lot #6146 was located in area J with the coordinates in the NW corner of the coffin N21'3" W119'1". The elevation at the base of the coffin in the NW corner was 735.39 famsl. The 4 sided sub-adult coffin (28" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in an indeterminate position within the coffin. The following grave goods for lot #6146 were recovered: safety pin fragments and a button.

Burial lot #6147 was located in area J with the coordinates in the NW corner of the coffin N18'7" W119'8". The elevation at the base of the coffin in the NW corner was 734.97 famsl. The 4 sided sub-adult coffin (26" x 8") contained the remains of 1 individual. The primary individual was placed head to the west in a face up position within the coffin. No grave goods for lot #6147 were recovered.

Burial lot #6148 was located in area J with the coordinates in the NW corner of the coffin N18'0" W115'4". The elevation at the base of the coffin in the NW corner was 734.07 famsl. The 4 sided sub-adult coffin (26" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6148 were recovered.

Burial lot #6149 was located in area J with the coordinates in the NW corner of the burial pit stain N21'6" W114'2". The elevation at the base of the stain in the NW corner was 734.43 famsl. The burial pit (no coffin present) contained the remains of an indeterminate number of individuals. The individuals were placed in an indeterminate position within the burial pit. The following grave goods for lot #6149 were recovered: a pair of leather shoes.

Burial lot #6150 was located in area J with the coordinates in the NW corner of the coffin N24'11" W114'5". The elevation at the base of the coffin in the NW corner was 735.54 famsl. The 6 sided sub-adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6150 were recovered: safety pins.

Burial lot #6151 was located in area J with the coordinates in the NW corner of the coffin N24'11" W114'5". The elevation at the base of the coffin in the NW corner was 735.62 famsl. The 6 sided sub-adult coffin (46" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6151 were recovered: a safety pin, cloth, buttons, and a leather sub-adult shoe.

Burial lot #6152 was located in area J with the coordinates in the NW corner of the coffin N31'2" W108' 9". The elevation at the base of the coffin in the NW corner was 737.213 famsl. The 4 sided sub-adult coffin (20" x 6") contained no skeletal remains. No grave goods for lot # 6152 were recovered.

Burial lot #6153 was located in area J with the coordinates in the NW corner of the coffin N15' 2" W113' 0". The elevation at the base of the coffin in the NW corner was 736.033 famsl. The 6 sided adult coffin (84" x 19") contained the remains of 1 individual. The primary individual was placed in a supine position within the coffin with the head facing west. No grave goods for lot # 6153 were recovered.

Burial lot #6154 was located in area J with the coordinates in the NW corner of the coffin N17'10" W110'4". The elevation at the base of the coffin in the NW corner was 735.993 famsl. The 4 sided sub-adult coffin (25" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. The following grave goods for lot #6154 were recovered: a safety pin, cloth, and buttons.

Burial lot #6155 was located in area J with the coordinates in the NW corner of the coffin N124'11" W109'6". The elevation at the base of the coffin in the NW corner was 736.443 famsl. The 4 sided sub-adult coffin (24" x 11") contained no skeletal remains. No grave goods for lot #6155 were recovered.

Burial lot #6156 was located in area J with the coordinates in the NW corner of the coffin N28'1" W108'10". The elevation at the base of the coffin in the NW corner was 737.023 famsl. The 4 sided sub-adult coffin (18" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin with head to west. No grave goods for lot #6156 were recovered.

Burial lot #6157 was located in area J with the coordinates in the NW corner of the coffin N31'1" W110'9". The elevation at the base of the coffin in the NW corner was 737.143 famsl. The 4 sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin with head to west. The following grave goods for lot #6157 were recovered: safety pins and cloth.

Burial lot #6158 was located in area J with the coordinates in the NW corner of the coffin N34'3" W110'2". The elevation at the base of the coffin in the NW corner was 737.363 famsl. The shape of this sub-adult coffin (27.5" x 6.5") was indeterminate. It contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin. No grave goods for lot #6158 were recovered.

Burial lot #6159 was located in area J with the coordinates in the NW corner of the coffin N36'9" W110'3". The elevation at the base of the coffin in the NW corner was 737.913 famsl. The 4 sided sub-adult coffin (34" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin with head to west. The following grave goods for lot #6159 were recovered: safety pins.

Burial lot #6160 was located in area J with the coordinates in the NW corner of the coffin N39'3" W110'4". The elevation at the base of the coffin in the NW corner was 738.163 famsl. The 6 sided sub-adult coffin (24" x 6") contained the remains of 1 individual. The primary individual was placed in an indeterminate position within the coffin with head to west. There were no grave goods recovered for lot #6160.

Burial lot #6161 was located in area J with the coordinates in the NW corner of the coffin N42'2" W110'4". The elevation at the base of the coffin in the NW corner was 738.675 famsl. The 4 sided sub-adult coffin (23" x 5.5") contained the remains of 1 individual. The primary individual was placed in a supine position in the coffin with the head to the west. The following grave goods for lot #6161 were recovered: wood grave marker.

Burial lot #6162 was located in area J with the coordinates in the NW corner of the coffin N41'7" W110'8". The elevation at the base of the coffin in the NW corner was 739.093 famsl. The 4 sided sub-adult coffin (24.5" x 7") contained the remains of 1 individual. The position of the primary individual was indeterminate and its head was to the west facing east. The following grave goods for lot #6162 were recovered: a safety pin and buttons.

Burial lot #6163 was located in area J with the coordinates in the NW corner of the coffin N47'2" W110'6". The elevation at the base of the coffin in the NW corner was 739.153 famsl. The 4 sided sub-adult coffin (28.5" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin with head facing west. No grave goods were recovered for lot #6163.

Burial lot # 6164 was located in area J with the coordinates in the NW corner of the coffin N49'9" W110'9". The elevation at the base of the coffin in the NW corner was 739.283 famsl. The 6 sided sub-adult coffin (38"x11") contained the remains of 1 individual. The primary individual was placed in a supine position in the coffin with the head to west. The following grave goods for lot #6164 were recovered: safety pin, cloth, buttons, gold Russian Orthodox cross and chain, silver cross.

Burial lot #6165 was located in area J with the coordinates in the NW corner of the coffin N50'11" W110'10". The elevation at the base of the coffin in the NW corner was 739.943 famsl. No coffin wood was preserved, but coffin nails were present in situ. The sub-adult coffin (25"x5") contained the remains of 1 individual. The primary individual was placed in an extended position in the coffin with head to west. The following grave goods for lot #6165 were recovered: safety pin, buttons.

Burial lot # 6166 was located in area J with the coordinates in the NW corner of the coffin N54'9" W110'11". The elevation at the base of the coffin in the NW corner was 740.413 famsl. The indeterminate sided sub-adult coffin (21"x8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin. There were no grave goods recovered for lot #6166.

Burial lot #6167 was located in area J with the coordinates in the NW corner of the coffin N57'6" W111'2". The elevation at the base of the coffin in the NW corner was 740.483 famsl. The 6 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin. There were no grave goods recovered for lot #6167.

Burial lot #6168 was located in area J with the coordinates in the NW corner of the coffin N59'11" W111'3". The elevation at the base of the coffin in the NW corner was 740.573 famsl. The 6 sided sub-adult coffin (31" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6168 were recovered: 3 safety pins, cloth, 7 buttons.

Burial lot #6169 was located in area J with the coordinates in the NW corner of the coffin N62'7" W111'7". The elevation at the base of the coffin in the NW corner was 740.603 famsl. The 6 sided sub-adult coffin (48" x 14") contained the remains of 1 individual. Additional skeletal elements were found in the pit fill (#6283). The primary individual was face up with the head to the west facing east. The following grave goods for lot #6169 were recovered: 2 buttons.

Burial lot #6170 was located in area J with the coordinates in the NW corner of the coffin N65'4" W111'4". The elevation at the base of the coffin in the NW corner was 740.583 famsl. The 6 sided sub-adult coffin (21" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin with the head to the west facing east. The following grave goods for lot #6170 were recovered: 3 safety pins, 7 buttons, cloth.

Burial lot #6171 was located in area J with the coordinates in the NW corner of the coffin N71'9" W106'6". The elevation at the base of the coffin in the NW corner was 741.493 famsl. The 4 sided sub-adult coffin (24" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6171.

Burial lot #6172 was located in area J with the coordinates in the NW corner of the coffin N68'7" W105'1". The elevation at the base of the coffin in the NW corner was 741.113 famsl. The 6 sided sub-adult coffin (38" x 10") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6172 were recovered: safety pin, cloth.

Burial lot #6173 was located in area J with the coordinates in the NW corner of the coffin N64'11" W105'9". The elevation at the base of the coffin in the NW corner was 740.943 famsl. The sub-adult coffin (heavily disturbed leaving dimensions indeterminate) contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin. There were no grave goods recovered for lot #6173.

Burial lot #6174 was located in area J with the coordinates in the NW corner of the coffin N62'9" W104'6". The elevation at the base of the coffin in the NW corner was 740.673 famsl. The indeterminately sided sub-adult coffin (28" x 10") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin. There were no grave goods recovered for lot #6174.

Burial lot #6175 was located in area J with the coordinates in the NW corner of the coffin N59'9" W105'3". The elevation at the base of the coffin in the NW corner was 740.333 famsl. The 6 sided sub-adult coffin (32" x 9") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6175.

Burial lot #6176 was located in area J with the coordinates in the NW corner of the coffin N54'6" W104'6". The elevation at the base of the coffin in the NW corner was 740.353 famsl. The 4 sided sub-adult coffin (24.5" x 9.5") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6176.

Burial lot #6177 was located in area J with the coordinates in the NW corner of the coffin N'51'11" W104'9". The elevation at the base of the coffin in the NW corner was 739.493 famsl. The 4 sided sub-adult coffin (29" x 7") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6177.

Burial lot #6178 was located in area J with the coordinates in the NW corner of the coffin N49'5" W104'8". The elevation at the base of the coffin in the NW corner was 739.503 famsl. The 6 sided sub-adult coffin (28" x 7.5") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin with the head to the west facing east. The following grave goods for lot #6178 were recovered: 2 buttons, 3 pins, 2 safety pins.

Burial lot #6179 was located in area J with the coordinates in the NW corner of the coffin N47' W104'10". The elevation at the base of the coffin in the NW corner was 739.503 famsl. The 4 sided sub-adult coffin (34.5" x 9") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin with the head to the west facing east. The following grave goods for lot #6179 were recovered: 2 safety pins, cloth.

Burial lot #6180 was located in area J with the coordinates in the NW corner of the coffin N44'6" W106'11". The elevation at the base of the coffin in the NW corner was 738.713 famsl. The 4 sided sub-adult coffin (31.5" x 9.5") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin with the head to the west facing east. The following grave goods for lot #6180 were recovered: microscope slide cover.

Burial lot #6181 was located in area J with the coordinates in the NW corner of the coffin N41'1" W105. The elevation at the base of the coffin in the NW corner was 738.543 famsl. The 4 sided sub-adult coffin (33" x 7.5") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin. There were no grave goods recovered for lot #6181.

Burial lot #6182 was located in area J with the coordinates in the NW corner of the coffin N39'2" W104'11". The elevation at the base of the coffin in the NW corner was 737.973 famsl. The indeterminately sided (due to heavy disturbance) sub-adult coffin (32.5" x 6.5") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin with the head to the west facing east. The following grave goods for lot #6182 were recovered: 1 safety pin.

Burial lot #6183 was located in area J with the coordinates in the NW corner of the coffin N36'5" W104'10". The elevation at the base of the coffin in the NW corner was 737.823 famsl. The 6 sided sub-adult coffin (22" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6183.

Burial lot #6184 was located in area J with the coordinates in the NW corner of the coffin N34'3" W104'9". The elevation at the base of the coffin in the NW corner was 737.723 famsl. The 6 sided sub-adult coffin (28.5" x 7.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6184.

Burial lot #6185 was located in area J with the coordinates in the NW corner of the coffin N31' W104'6". The elevation at the base of the coffin in the NW corner was 737.453 famsl. The 6 sided sub-adult coffin (27.25" x 8") contained the remains of 1 individual. The primary individual was placed in an indeterminate position in the coffin. There were no grave goods recovered for lot #6185.

Burial lot #6186 was located in area J with the coordinates in the NW corner of the coffin N27'9" W104'8". The elevation at the base of the coffin in the NW corner was 737.053 famsl. The 6 sided sub-adult coffin (24" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6186.

Burial lot #6187 was located in area J with the coordinates in the NW corner of the coffin N24'5" W104'9". The elevation at the base of the coffin in the NW corner was 737.673 famsl. The 4 sided sub-adult coffin (29" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #6187 were recovered: 1 button.

Burial lot #6188 was located in area J with the coordinates in the NW corner of the coffin N20'9" W106". The elevation at the base of the coffin in the NW corner was 736.163 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6188.

Burial lot #6189 was located in area J with the coordinates in the NW corner of the coffin N17'10" W105'6". The elevation at the base of the coffin in the NW corner was 736.053 famsl. The 4 sided sub-adult coffin (27" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6189.

Burial lot #6190 was located in area J with the coordinates in the NW corner of the coffin N14'9" W103'3". The elevation at the base of the coffin in the NW corner was 736.123 famsl. The 6 sided adult coffin (75" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6190.

Burial lot #6191 was located in area J with the coordinates in the NW corner of the coffin N17'6" W101'6". The elevation at the base of the coffin in the NW corner was 736.073 famsl. The 4 sided sub-adult coffin (27" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6191.

Burial lot #6192 was located in area J with the coordinates in the NW corner of the coffin N20'5" W100'11". The elevation at the base of the coffin in the NW corner was 736.283 famsl. The 4 sided sub-adult coffin (21" x 6.5") contained the remains of 1 individual. The primary individual was placed in an indeterminately in the coffin with the head to the east facing west. The following grave goods for lot #6192 were recovered: safety pin, 2 buttons, cloth.

Burial lot #6193 was located in area J with the coordinates in the NW corner of the coffin N24'6" W99'11". The elevation at the base of the coffin in the NW corner was 736.583 famsl. The 4 sided sub-adult coffin (21" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6193 were recovered: 1 safety pin.

Burial lot #6194 was located in area J with the coordinates in the NW corner of the coffin N27'9" W99'11". The elevation at the base of the coffin in the NW corner was 737.153 famsl. The 4 sided sub-adult coffin (29" x 7.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6194 were recovered: 1 button, glass.

Burial lot #6195 was located in area J with the coordinates in the NW corner of the coffin N96' W99'10". The elevation at the base of the coffin in the NW corner was 737.343 famsl. The 4 sided sub-adult coffin (26" x 7") contained the remains of 1 individual. The primary individual was indeterminately placed in the coffin. The following grave goods for lot #6195 were recovered: 1 jar with lid and rubber ring, cloth.

Burial lot #6196 was located in area J with the coordinates in the NW corner of the coffin N33'6" W99'6". The elevation at the base of the coffin in the NW corner was 737.543 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6196.

Burial lot #6197 was located in area J with the coordinates in the NW corner of the coffin N35'8" W101'7". The elevation at the base of the coffin in the NW corner was 738.003 famsl. The 6 sided sub-adult coffin (24" x 7.5") contained the remains of 1 individual. The primary individual was indeterminately placed in the coffin with the head to the west facing east. The following grave goods for lot #6197 were recovered: cloth, unknown.

Burial lot #6198 was located in area J with the coordinates in the NW corner of the coffin N35'5" W107'. The elevation at the base of the coffin in the NW corner was 738.043 famsl. The 4 sided sub-adult coffin (23.5" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6198 were recovered: cloth.

Burial lot #6199 was located in area J with the coordinates in the NW corner of the coffin N40'11" W99'9". The elevation at the base of the coffin in the NW corner was 738.503 famsl. The 6 sided sub-adult coffin (36" x 9.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #6199 were recovered: 1 button, 1 shoe.

Burial lot #6200 was located in area J with the coordinates in the NW corner of the coffin N43'6" W99'9". The elevation at the base of the coffin in the NW corner was 738.993 famsl. The 6 sided sub-adult coffin (42" x 10.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6200 were recovered: 2 buttons.

Burial lot #6201 was located in area J with the coordinates in the NW corner of the coffin N46' W99'7". The elevation at the base of the coffin in the NW corner was 739.073 famsl. The 6 sided sub-adult coffin (23" x 7.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6201.

Burial lot #6202 was located in area J with the coordinates in the NW corner of the coffin N48'5" W99'9". The elevation at the base of the coffin in the NW corner was 739.083 famsl. The 6 sided sub-adult coffin (27" x 7.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #6202 were recovered: 4 safety pins.

Burial lot #6203 was located in area J with the coordinates in the NW corner of the coffin N51' W100'. The elevation at the base of the coffin in the NW corner was 739.238 famsl. The 4 sided sub-adult coffin (24" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6203.

Burial lot #6204 was located in area J with the coordinates in the NW corner of the coffin N53'11" W100'2". The elevation at the base of the coffin in the NW corner was 703.403 famsl. The 6 sided sub-adult coffin (22.5" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6204 were recovered: cloth, leather shoelace.

Burial lot #6205 was located in area J with the coordinates in the NW corner of the coffin N56'9" W100'. The elevation at the base of the coffin in the NW corner was 739.543 famsl. The 6 sided sub-adult coffin (27.25" x 6.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6205.

Burial lot #6206 was located in area J with the coordinates in the NW corner of the coffin N59'3" W100'7". The elevation at the base of the coffin in the NW corner was 739.973 famsl. The 4 sided sub-adult coffin (23.5" x 7") contained the remains of 1 individual. The primary individual was indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6206 were recovered.

Burial lot #6207 was located in area J with the coordinates in the NW corner of the coffin N62' W100'6". The elevation at the base of the coffin in the NW corner was 740.303 famsl. The 4 sided sub-adult coffin (42" x 7") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6207 were recovered: 4 buttons, 3 safety pins, 5 buttons.

Burial lot #6208 was located in area J with the coordinates in the NW corner of the coffin N65'1" W100'8". The elevation at the base of the coffin in the NW corner was 740.593 famsl. The 4 sided sub-adult coffin (dimensions indeterminate) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6208 were recovered: safety pins, cloth, 2 buttons.

Burial lot #6209 was located in area J with the coordinates in the NW corner of the coffin N68'8" W101'7". The elevation at the base of the coffin in the NW corner was 740.803 famsl. The 4 sided sub-adult coffin (27" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6209 were recovered: 1 button, 2 safety pins.

Burial lot #6210 was located in area J with the coordinates in the NW corner of the coffin N71'10" W102'8". The elevation at the base of the coffin in the NW corner was 741.133 famsl. The 6 sided sub-adult coffin (21" x 7") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods from lot #6210 were recovered: 1 safety pin.

Burial lot #6211 was located in area J with the coordinates in the NW corner of the coffin N65'3" W96'9". The elevation at the base of the coffin in the NW corner was 740.483 famsl. The 4 sided sub-adult coffin (25" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the east facing west. The following grave goods for lot #6211 were recovered: 1 thumbscrew.

Burial lot #6212 was located in area J with the coordinates in the NW corner of the coffin N61'7" W94'6". The elevation at the base of the coffin in the NW corner was 740.243 famsl. The 4 sided sub-adult coffin (28" x 6.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6212 were recovered: 1 safety pin, 2 buttons.

Burial lot #6213 was located in area J with the coordinates in the NW corner of the coffin N59'2" W94'6". The elevation at the base of the coffin in the NW corner was 735.033 famsl. The indeterminately sided sub-adult coffin (22" x 8.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6213 were recovered: 2 pins.

Burial lot #6214 was located in area J with the coordinates in the NW corner of the coffin N56'3" W94'9". The elevation at the base of the coffin in the NW corner was 739.393 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6214.

Burial lot #6215 was located in area J with the coordinates in the NW corner of the coffin N53'11" W95'. The elevation at the base of the coffin in the NW corner was 739.333 famsl. The indeterminately sided sub-adult coffin (23.5" x 12") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6215 were recovered: 2 safety pins, cloth.

Burial lot #6216 was located in area J with the coordinates in the NW corner of the coffin N51'3" W94'3". The elevation at the base of the coffin in the NW corner was 739.043 famsl. The 4 sided sub-adult coffin (27.5" x 6.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6216 were recovered: 1 button, 1 safety pin, cloth.

Burial lot #6217 was located in area J with the coordinates in the NW corner of the coffin N48'4" W94'11". The elevation at the base of the coffin in the NW corner was 738.953 famsl. The indeterminately sided sub-adult coffin (22" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6217 were recovered: 1 crucifix, 1 safety pin.

Burial lot #6218 was located in area J with the coordinates in the NW corner of the coffin N46' W94'8". The elevation at the base of the coffin in the NW corner was 738.833 famsl. The 6 sided sub-adult coffin (32" x 8") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6218 were recovered: medallion, 8 buttons.

Burial lot #6219 was located in area J with the coordinates in the NW corner of the coffin N43' W95'. The elevation at the base of the coffin in the NW corner was 738.843 famsl. No coffin or burial pit was present. The burial (found at surface) contained an indeterminate number of individuals. There were no grave goods recovered for lot #6219.

Burial lot #6220 was located in area J with the coordinates in the NW corner of the coffin N41' W94'7". The elevation at the base of the coffin in the NW corner was 738.523 famsl. The 4 sided sub-adult coffin (27" x 9") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6220 were recovered: leather, 4 buttons, 2 safety pins.

Burial lot #6221 was located in area J with the coordinates in the NW corner of the coffin N38'6" W94'8". The elevation at the base of the coffin in the NW corner was 737.873 famsl. The 4 sided sub-adult coffin (21" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6221

Burial lot #6222 was located in area J with the coordinates in the NW corner of the coffin N35'11" W94'9". The elevation at the base of the coffin in the NW corner was 737.843 famsl. The 4 sided sub-adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6222 were recovered: buttons.

Burial lot #6223 was located in area J with the coordinates in the NW corner of the coffin N34'3" W94'3". The elevation at the base of the coffin in the NW corner was 737.453 famsl. The indeterminately (due to deteriorated wood) sided sub-adult coffin (27" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #6223 were recovered: 2 glass fragments, 18 tacks.

Burial lot #6224 was located in area J with the coordinates in the NW corner of the coffin N30'8" W94'5". The elevation at the base of the coffin in the NW corner was 737.083 famsl. The 6 sided sub-adult coffin (38" x 10") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6224.

Burial lot #6225 was located in area J with the coordinates in the NW corner of the coffin N27'9" W94'9". The elevation at the base of the coffin in the NW corner was 736.863 famsl. The 4 sided sub-adult coffin (23" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6225 were recovered: glass.

Burial lot #6226 was located in area J with the coordinates in the NW corner of the coffin N24'4" W95'4". The elevation at the base of the coffin in the NW corner was 736.463 famsl. The type and dimensions of the coffin are indeterminate due to heavy disturbance. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6226 were recovered: safety pin.

Burial lot #6227 was located in area J with the coordinates in the NW corner of the coffin N20'7" W95'9". The elevation at the base of the coffin in the NW corner was 736.203 famsl. The 6 sided sub-adult coffin (22" x 8.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the east facing west. There were no grave goods recovered for lot #6227.

Burial lot #6228 was located in area J with the coordinates in the NW corner of the coffin N17'4" W96". The elevation at the base of the coffin in the NW corner was 735.973 famsl. The 6 sided sub-adult coffin (21" x 9") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the east facing west. There were no grave goods recovered for lot #6228.

Burial lot #6229 was located in area J with the coordinates in the NW corner of the coffin N14'4" W95'6". The elevation at the base of the coffin in the NW corner was 735.643 famsl. The 6 sided adult coffin (77" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6229.

Burial lot #6230 was located in area J with the coordinates in the NW corner of the coffin N10' W95'7". The elevation at the base of the coffin in the NW corner was 735.073 famsl. The 6 sided sub-adult coffin (70" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6230 were recovered: cloth.

Burial lot #6231 was located in area J with the coordinates in the NW corner of the coffin N13'2" W92'3". The elevation at the base of the coffin in the NW corner was 735.503 famsl. No evidence of coffin or burial pit found.

Burial lot #6232 was located in area J with the coordinates in the NW corner of the coffin N16'9" W91'9". The elevation at the base of the coffin in the NW corner was 736.073 famsl. The indeterminately sided sub-adult coffin (19" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #6232 were recovered: 3 buttons.

Burial lot #6233 was located in area J with the coordinates in the NW corner of the coffin N19'10" W91'3". The elevation at the base of the coffin in the NW corner was 736.133 famsl. The indeterminately sided sub-adult coffin (22" x 9") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6233.

Burial lot #6234 was located in area J with the coordinates in the NW corner of the coffin N23'10" W90'6". The elevation at the base of the coffin in the NW corner was 736.193 famsl. The indeterminately sided sub-adult coffin (23.5" x 7") contained the remains of 1 individual. The primary individual was face down with the head to the west facing east. The following grave goods for lot #6234 were recovered: buttons, 3 safety pins.

Burial lot #6235 was located in area J with the coordinates in the NW corner of the coffin N44'8" W89'8". The elevation at the base of the coffin in the NW corner was 738.733 famsl. The 6 sided sub-adult coffin (19" x 13") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6235 were recovered: wire mesh, newspaper, hand fan, 3 buttons, 3 unknown ceramic fragments.

Burial lot #6236 was located in area J with the coordinates in the NW corner of the coffin N47'3" W90'5". The elevation at the base of the coffin in the NW corner was 738.713 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6236 were recovered: cloth.

Burial lot #6237 was located in area J with the coordinates in the NW corner of the coffin N50'2" W90'3". The elevation at the base of the coffin in the NW corner was 738.803 famsl. The 4 sided sub-adult coffin (32" x 7.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6237.

Burial lot #6238 was located in area J with the coordinates in the NW corner of the coffin N52'7" W90'4". The elevation at the base of the coffin in the NW corner was 738.973 famsl. The 4 sided sub-adult coffin (33" x 7.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6238 were recovered: 1 penny, 1 shoe eyelet, 1 safety pin, buttons.

Burial lot #6239 was located in area J with the coordinates in the NW corner of the coffin N54'10" W90'5". The elevation at the base of the coffin in the NW corner was 739.103 famsl. The 4 sided sub-adult coffin (30" x 9") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6239 were recovered: 2 pennies, cloth, 3 eyelets, safety pins, buttons.

Burial lot #6240 was located in area J with the coordinates in the NW corner of the coffin N57' W90'5". The elevation at the base of the coffin in the NW corner was 739.463 famsl. The 4 sided sub-adult coffin (30" x 6.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6240 were recovered: safety pin, cloth, 2 buttons, shoe.

Burial lot #6241 was located in area J with the coordinates in the NW corner of the coffin N61'1" W90'2". The elevation at the base of the coffin in the NW corner was 739.683 famsl. The 4 sided sub-adult coffin (24" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6241 were recovered: 2 safety pins, leather.

Burial lot #6242 was located in area J with the coordinates in the NW corner of the coffin N61'8" W80'7". The elevation at the base of the coffin in the NW corner was 740.073 famsl. The 6 sided sub-adult coffin (23" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the east facing west. There were no grave goods recovered for lot #6242.

Burial lot #6243 was located in area J with the coordinates in the NW corner of the coffin N65'5" W92'6". The elevation at the base of the coffin in the NW corner was 740.363 famsl. The 4 sided sub-adult coffin (30" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6243 were recovered: 1 beer bottle.

Burial lot #6244 was located in area J with the coordinates in the NW corner of the coffin N19'7" W137'6". The elevation at the base of the coffin in the NW corner was 735.043 famsl. The 4 sided sub-adult coffin (23" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #6244 were recovered: 1 button.

Burial lot #6245 was located in area J with the coordinates in the NW corner of the coffin N16'10" W137'3". The elevation at the base of the coffin in the NW corner was 734.263 famsl. The 6 sided adult coffin (79" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6245.

Burial lot #6246 was located in area J with the coordinates in the NW corner of the coffin N12'5" W137'9". The elevation at the base of the coffin in the NW corner was 734.043 famsl. The 6 sided adult coffin (dimensions indeterminate) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6246 were recovered: 2 rubber tubes, 8 glass, 1 porcelain.

Burial lot #6247 was located in area J with the coordinates in the NW corner of the coffin N8'2" W139'2". The elevation at the base of the coffin in the NW corner was 733.833 famsl. The 6 sided adult coffin (dimensions indeterminate) contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6247 were recovered: cloth.

Burial lot #6248 was located in area J with the coordinates in the NW corner of the coffin N9'7" W131'2". The elevation at the base of the coffin in the NW corner was 733.803 famsl. The 6 sided adult coffin (74" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6248.

Burial lot #6249 was located in area J with the coordinates in the NW corner of the coffin N12'2" W129'9". The elevation at the base of the coffin in the NW corner was 733.893 famsl. The 6 sided adult coffin (74" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6249.

Burial lot #6250 was located in area J with the coordinates in the NW corner of the coffin N15'8" W128'8". The elevation at the base of the coffin in the NW corner was 734.283 famsl. The 6 sided adult coffin (75" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6250.

Burial lot #6251 was located in area J with the coordinates in the NW corner of the coffin N16' W121'. The elevation at the base of the coffin in the NW corner was 735.083 famsl. The 6 sided adult coffin (76" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6251.

Burial lot #6252 was located in area J with the coordinates in the NW corner of the coffin N12'3" W121'. The elevation at the base of the coffin in the NW corner was 734.273 famsl. The 6 sided adult coffin (78" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6252.

Burial lot #6253 was located in area J with the coordinates in the NW corner of the coffin N8'2" W122'11". The elevation at the base of the coffin in the NW corner was 733.633 famsl. The 6 sided adult coffin (dimensions indeterminate) contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #6253 were recovered: 1 gold plated loop earring, leather.

Burial lot #6254 was located in area J with the coordinates in the NW corner of the coffin N4'6" W123'3". The elevation at the base of the coffin in the NW corner was 733.473 famsl. The 6 sided adult coffin (75" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6254 were recovered: cloth/plastic/vinyl.

Burial lot #6255 was located in area J with the coordinates in the NW corner of the coffin N19'7"W133'6". The elevation at the base of the coffin in the NW corner was 735.293 famsl. The 4 sided sub-adult coffin (dimensions indeterminate) contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #6255 were recovered: 1 button, 2 safety pins, 6 unknown, 2 baby booties.

Burial lot #6256 was located in area J with the coordinates in the NW corner of the coffin N56'3" W121'5". The elevation at the base of the coffin in the NW corner was 739.403 famsl. The 4 sided sub-adult coffin (18" x 9") contained the remains of 1 individual. Additional skeletal elements were found in the pit fill. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6256.

Burial lot #6257 was located in area J with the coordinates in the NW corner of the coffin N54' W121'10". The elevation at the base of the coffin in the NW corner was 739.493 famsl. The type and dimensions of the coffin were indeterminate. It contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6257.

Burial lot #6258 was located in area J with the coordinates in the NW corner of the stain N54' W127'9". The elevation at the base of the coffin in the NW corner was 739.103 famsl. The coffin's type and dimensions were indeterminate due to disturbance. It contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6258.

Burial lot #6259 was located in area J with the coordinates in the NW corner of the coffin N56'1" W126'8". The elevation at the base of the coffin in the NW corner was 739.513 famsl. The coffin's type and dimensions are indeterminate. It contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6259.

Burial lot #6260 was located in area J with the coordinates in the NW corner of the coffin N57'3" W130'11". The elevation at the base of the coffin in the NW corner was 740.023 famsl. The indeterminately sided sub-adult coffin (26" x 9") contained the remains of 1 individual. The primary individual was face to the south with the head to the west facing east. The following grave goods for lot #6260 were recovered: 1 safety pin.

Burial lot #6261 was located in area J with the coordinates in the NW corner of the coffin N54'4" W131'. The elevation at the base of the coffin in the NW corner was 739.773 famsl. The 6 sided sub-adult coffin (30" x 10") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6261 were recovered: 1 safety pin.

Burial lot #6262 was located in area J with the coordinates in the NW corner of the coffin N26'11" W131'11". The elevation at the base of the coffin in the NW corner was 735.893 famsl. The \* sided sub-adult coffin (23.5" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6262 were recovered: cloth, unknown.

Burial lot #6263 was located in area J with the coordinates in the NW corner of the coffin N28'11" W132'3". The elevation at the base of the coffin in the NW corner was 736.373 famsl. The 6 sided sub-adult coffin (35" x 9") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6263 were recovered: 2 safety pins, 3 buttons.

Burial lot #6264 was located in area J with the coordinates in the NW corner of the coffin N28'7" W136'. The elevation at the base of the coffin in the NW corner was 736.213 famsl. The 4 sided sub-adult coffin (27" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6264 were recovered: 2 safety pins.

Burial lot #6266 was located in area J with the coordinates in the NW corner of the coffin N31'8" W22'5". The elevation at the base of the coffin in the NW corner was 736.633 famsl. The 6 sided sub-adult coffin (27.5" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #6266 were recovered: 7 buttons.

Burial lot #6267 was located in area J with the coordinates in the NW corner of the coffin N28' W36'3". The elevation at the base of the coffin in the NW corner was 735.843 famsl. The pit fill contains no evidence of a coffin.

Burial lot #6268 was located in area J with the coordinates in the NW corner of the coffin N6'9" W113'7". The elevation at the base of the coffin in the NW corner was 735.313 famsl. The 6 sided sub-adult coffin (73" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6268.

Burial lot #6269 was located in area J with the coordinates in the NW corner of the coffin N10'10" W112'9". The elevation at the base of the coffin in the NW corner was 735.843 famsl. The 6 sided sub-adult coffin (78" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6269.

Burial lot #6270 was located in area J with the coordinates in the NW corner of the coffin N21'1" W110'7". The elevation at the base of the coffin in the NW corner was 735.793 famsl. The 6 sided sub-adult coffin (31.5" x 7") contained the remains of 1 individual. An additional adult skeleton was found in the burial pit. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave good for lot #6270 and #6271 (secondary burial) were recovered: 4 safety pins, 1 button, cloth.

Burial lot #6272 was located in area J with the coordinates in the NW corner of the coffin N57'3" W104'9". The elevation at the base of the coffin in the NW corner was 740.293 famsl. The 4 sided sub-adult coffin (20" x 7") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6272.

Burial lot #6273 was located in area J with the coordinates in the NW corner of the coffin N36'3" W90'6". The elevation at the base of the coffin in the NW corner was 735.243 famsl. The indeterminately sided sub-adult coffin (13.25" x 8.75") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #6273 were recovered: 2 buttons.

Burial lot #6274 was located in area J with the coordinates in the NW corner of the coffin N11'8" W104'3". The elevation at the base of the coffin in the NW corner was 735.493 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6274.

Burial lot #6276 was located in area J with the coordinates in the NW corner of the coffin N7'9" W104'9". The elevation at the base of the coffin in the NW corner was 735.133 famsl. The 6 sided adult coffin (74" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #6276 were recovered: 1 button, leather.

Burial lot #6277 was located in area J with the coordinates in the NW corner of the coffin N77' W89'. The elevation at the base of the coffin in the NW corner was 741.823 famsl. The 4 sided sub-adult coffin (20" x 7") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6277.

Burial lot #6278 was located in area J with the coordinates in the NW corner of the coffin N69'10" W88'3". The elevation at the base of the coffin in the NW corner was 741.503 famsl. The 6 sided sub-adult coffin (17" x 9") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6278 were recovered: 3 pins.

Burial lot #6279 was located in area J with the coordinates in the NW corner of the coffin N76'4" W86'9". The elevation at the base of the coffin in the NW corner was 741.313 famsl. The 4 sided sub-adult coffin (dimensions indeterminate due to heavy disturbance) contained the remains of 1 individual. Skeletal elements, probably belonging to this individual, were found in lot #6281. The primary individual was face up with the head (missing) to the west facing east. There were no grave goods recovered for lot #6279 and lot #6281.

Burial lot #6280 was located in area J with the coordinates in the NW corner of the coffin N29'6" W88'9". The elevation at the base of the coffin in the NW corner was 738.236 famsl. The 4 sided sub-adult coffin (11" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the east facing west. There were no grave goods recovered for lot #6280.

Burial lot #6282 was located in area J with the coordinates in the NW corner of the coffin N42' W89'9". The elevation at the base of the coffin in the NW corner was 739.423 famsl. The 4 sided sub-adult coffin (15" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6282.

Burial lot #6284 was located in area J with the coordinates in the NW corner of the coffin N84'6" W81'5". The elevation at the base of the coffin in the NW corner was 742.713 famsl. There is no evidence of a burial at this location.

Burial lot #6287 was located in area J with the coordinates at the NW datum point of the coffin (NW corner truncated) N68'5" W110'3". The elevation at the base of the coffin at the NW datum point was 741.413 famsl. The coffin's type and dimensions are indeterminate due to heavy disturbance by the water line. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #6287.

Burial lot #6288 was located in area J with the coordinates in the NW corner of the coffin N93'4" W110'11". The elevation at the base of the coffin in the NW corner was 743.163 famsl. The coffin's type and dimensions are indeterminate due to heavy disturbance by the water main trench. It contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #6288 were recovered: 2 tacks.

Burial lot #6289 was located in area J with the coordinates in the NW corner of the coffin N88'1" W110'9". The elevation at the base of the coffin in the NW corner was 743.393 famsl. The coffin's type and dimensions are indeterminate due to heavy disturbance by the water main trench. No bones were recovered. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #6289.

Burial lot #6290 was located in area J with the coordinates in the NW corner of the coffin N76'3" W127'1". The elevation at the base of the coffin in the NW corner was 741.823 famsl. The 6 sided sub-adult coffin (26" x 7.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #6290.

Burial lot #7000 was located in area K with the coordinates in the NW corner of the coffin S40'9" W114'9". The elevation at the base of the coffin in the NW corner was 739.713 famsl. The 6 sided adult coffin (80" x 24") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7000.

Burial lot #7001 was located in area K with the coordinates in the NW corner of the coffin S45' W114'3". The elevation at the base of the coffin in the NW corner was 729.643 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7001 were recovered: safety pin, glass.

Burial lot #7002 was located in area K with the coordinates in the NW corner of the coffin S45'3" W105'8" The elevation at the base of the coffin in the NW corner was 729.533 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7002 were recovered: safety pin.

Burial lot #7003 was located in area K with the coordinates in the NW corner of the coffin S41'1" W105'. The elevation at the base of the coffin in the NW corner was 729.743 famsl. The 6 sided adult coffin (74" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7003.

Burial lot #7004 was located in area K with the coordinates in the NW corner of the coffin S40'6" W97'2". The elevation at the base of the coffin in the NW corner was 729.613 famsl. The 6 sided adult coffin (75" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7004.

Burial lot #7005 was located in area K with the coordinates in the NW corner of the coffin s45'4" W96'8". The elevation at the base of the coffin in the NW corner was 729.543 famsl. The 6 sided adult coffin (74" x 19.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7005 were recovered: 4 safety pins.

Burial lot #7006 was located in area K with the coordinates in the NW corner of the coffin S45'10" W88'9" The elevation at the base of the coffin in the NW corner was 729.803 famsl. The 6 sided adult coffin (77" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7006.

Burial lot #7007 was located in area K with the coordinates in the NW corner of the coffin N40'10" W88'10". The elevation at the base of the coffin in the NW corner was 730.313 famsl. The 6 sided adult coffin (74" x 18.75") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7007.

Burial lot #7008 was located in area K with the coordinates in the NW corner of the coffin S36'10" W38'6". The elevation at the base of the coffin in the NW corner was 730.593 famsl. The 6 sided adult coffin (71" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7008.

Burial lot #7009 was located in area K with the coordinates in the NW corner of the coffin S37' W80'. The elevation at the base of the coffin in the NW corner was 730.593 famsl. The 6 sided adult coffin (72" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7009.

Burial lot #7010 was located in area K with the coordinates in the NW corner of the coffin S41' W80'5". The elevation at the base of the coffin in the NW corner was 730.004 famsl. The 6 sided adult coffin (74" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7010 were recovered: safety pins, cloth.

Burial lot #7011 was located in area K with the coordinates in the NW corner of the coffin S46'3" W80'2". The elevation at the base of the coffin in the NW corner was 729.333 famsl. The indeterminately sided adult coffin (109" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7011.

Burial lot #7012 was located in area K with the coordinates in the NW corner of the coffin S52'6" W71'9". The elevation at the base of the coffin in the NW corner was 729.103 famsl. The 6 sided adult coffin (72" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7012.

Burial lot #7013 was located in area K with the coordinates in the NW corner of the coffin S41'10" W71'. The elevation at the base of the coffin in the NW corner was 730.163 famsl. The 6 sided adult coffin (72" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7013.

Burial lot #7014 was located in area K with the coordinates in the NW corner of the coffin S37'11" W70'6". The elevation at the base of the coffin in the NW corner was 730.383 famsl. The 6 sided adult coffin (73" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7014 were recovered: cloth, holy water bottle, cross, tooth brush, hat pin, prayer book, nose syringe, buttons.

Burial lot #7015 was located in area K with the coordinates in the NW corner of the coffin S38'4" W61'8". The elevation at the base of the coffin in the NW corner was 730.383 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7015.

Burial lot #7016 was located in area K with the coordinates in the NW corner of the coffin S42'2" W62'9". The elevation at the base of the coffin in the NW corner was 730.073 famsl. The 6 sided adult coffin (70" x 15") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7016.

Burial lot #7017 was located in area K with the coordinates in the NW corner of the coffin S46'9" W63'3". The elevation at the base of the coffin in the NW corner was 728.943 famsl. The 6 sided sub-adult coffin (69" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7017.

Burial lot #7018 was located in area K with the coordinates in the NW corner of the coffin S47'9" W54'3". The elevation at the base of the coffin in the NW corner was 729.073 famsl. The 6 sided adult coffin (69" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7018 were recovered: safety pin.

Burial lot #7019 was located in area K with the coordinates in the NW corner of the coffin S42'10" W53'9". The elevation at the base of the coffin in the NW corner was 729.633 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7019.

Burial lot #7020 was located in area K with the coordinates in the NW corner of the coffin S38' W53'5". The elevation at the base of the coffin in the NW corner was 730.153 famsl. The 6 sided adult coffin (71" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7020.

Burial lot #7021 was located in area K with the coordinates in the NW corner of the coffin S38'1" W45'3". The elevation at the base of the coffin in the NW corner was 730.003 famsl. The 6 sided adult coffin (70" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7021.

Burial lot #7022 was located in area K with the coordinates in the NW corner of the coffin S43'2" W45'7". The elevation at the base of the coffin in the NW corner was 729.574 famsl. The 6 sided adult coffin (72" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7022.

Burial lot #7023 was located in area K with the coordinates in the NW corner of the coffin S47'8" W45'8". The elevation at the base of the coffin in the NW corner was 728.967 famsl. The 6 sided adult coffin (76" x 24") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7023.

Burial lot #7024 was located in area K with the coordinates in the NW corner of the coffin S48' W36'9". The elevation at the base of the coffin in the NW corner was 728.528 famsl. The 6 sided adult coffin (69" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7024.

Burial lot #7025 was located in area K with the coordinates in the NW corner of the coffin S43'4" W37'. The elevation at the base of the coffin in the NW corner was 729.332 famsl. The 6 sided adult coffin (72" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7025.

Burial lot #7026 was located in area K with the coordinates in the NW corner of the coffin S48'10" W28'2". The elevation at the base of the coffin in the NW corner was 728.508 famsl. The 6 sided adult coffin (76" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7026.

Burial lot #7028 was located in area K with the coordinates in the NW corner of the coffin S20'2" W61'7". The elevation at the base of the coffin in the NW corner was 732.468 famsl. The 6 sided adult coffin (66" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7028.

Burial lot #7029 was located in area K with the coordinates in the NW corner of the coffin S24'4" W61'9". The elevation at the base of the coffin in the NW corner was 732.051 famsl. The 6 sided adult coffin (75" x 15") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7029.

Burial lot #7030 was located in area K with the coordinates in the NW corner of the coffin S24'7". The elevation at the base of the coffin in the NW corner was 731.608 famsl. The 6 sided adult coffin (72" x 14") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7030.

Burial lot #7031 was located in area K with the coordinates in the NW corner of the coffin S20'6" W53'3". The elevation at the base of the coffin in the NW corner was 731.641 famsl. The 6 sided adult coffin (70.5" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7031.

Burial lot #7032 was located in area K with the coordinates in the NW corner of the coffin S16'4" W52'11". The elevation at the base of the coffin in the NW corner was 731.897 famsl. The 6 sided adult coffin (78" x 26") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7032.

Burial lot #7033 was located in area K with the coordinates in the NW corner of the coffin S15'11" W45'8". The elevation at the base of the coffin in the NW corner was 731.533 famsl. The indeterminately sided and dimensioned adult coffin contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7033.

Burial lot #7034 was located in area K with the coordinates in the NW corner of the coffin S21' W44'4". The elevation at the base of the coffin in the NW corner was 731.402 famsl. The 6 sided adult coffin (69" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7034.

Burial lot #7035 was located in area K with the coordinates in the NW corner of the coffin S25'2" W44'10". The elevation at the base of the coffin in the NW corner was 731.241 famsl. The 6 sided adult coffin (dimensions indeterminate) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7035.

Burial lot #7036 was located in area K with the coordinates in the NW corner of the coffin S29'6" W45'6". The elevation at the base of the coffin in the NW corner was 731.087 famsl. The 6 sided adult coffin (83" x 33") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7036.

Burial lot #7037 was located in area K with the coordinates in the NW corner of the coffin S34'7" W36'6". The elevation at the base of the coffin in the NW corner was 730.48 famsl. The 6 sided adult coffin (75" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7037.

Burial lot #7038 was located in area K with the coordinates in the NW corner of the coffin S30'4" W36'6". The elevation at the base of the coffin in the NW corner was 730.627 famsl. The 6 sided adult coffin (71" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7038.

Burial lot #7039 was located in area K with the coordinates in the NW corner of the coffin S26' W35'11". The elevation at the base of the coffin in the NW corner was 730.627 famsl. The 6 sided adult coffin (72" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7039.

Burial lot #7040 was located in area K with the coordinates in the NW corner of the coffin S21'7" W36'6". The elevation at the base of the coffin in the NW corner was 731.051 famsl. The adult coffin's type and dimensions are indeterminate due to heavy disturbance. It contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7040.

Burial lot #7041 was located in area K with the coordinates in the NW corner of the coffin S25'10" W27'. The elevation at the base of the coffin in the NW corner was 729.988 famsl. The 6 sided adult coffin (63" x 16") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7041.

Burial lot #7042 was located in area K with the coordinates in the NW corner of the coffin S30'5" W27'6". The elevation at the base of the coffin in the NW corner was 729.87 famsl. The 6 sided adult coffin (73" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7042.

Burial lot #7043 was located in area K with the coordinates in the NW corner of the coffin S34'10" W28'2". The elevation at the base of the coffin in the NW corner was 729.893 famsl. The 6 sided adult coffin (80" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7043.

Burial lot #7044 was located in area K with the coordinates in the NW corner of the coffin S39'5" W19'5". The elevation at the base of the coffin in the NW corner was 729.351 famsl. The 6 sided adult coffin (70" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7044.

Burial lot #7045 was located in area K with the coordinates in the NW corner of the coffin S34'9" W18'11". The elevation at the base of the coffin in the NW corner was 729.43 famsl. The 6 sided adult coffin (57" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7045.

Burial lot #7046 was located in area K with the coordinates in the NW corner of the coffin S30'6" W18'2". The elevation at the base of the coffin in the NW corner was 729.423 famsl. The pit contained no evidence of a coffin or skeleton. There were no grave goods recovered for lot #7046.

Burial lot #7048 was located in area K with the coordinates in the NW corner of the coffin S39'6" W10'2". The elevation at the base of the coffin in the NW corner was 728.853 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7048 were recovered: cloth, glass.

Burial lot #7049 was located in area K with the coordinates in the NW corner of the coffin S44' W10'8". The elevation at the base of the coffin in the NW corner was 728.872 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7049.

Burial lot #7050 was located in area K with the coordinates in the NW corner of the coffin S43'10" W1'8". The elevation at the base of the coffin in the NW corner was 728.603 famsl. The adult coffin's type and dimensions are indeterminate due to heavy disturbance. It contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7050 were recovered: metal charm.

Burial lot #7051 was located in area K with the coordinates in the NW corner of the coffin S40'3" W1'3". The elevation at the base of the coffin in the NW corner was 728.692 famsl. The indeterminately sided sub-adult coffin (57" x 16.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7051.

Burial lot #7052 was located in area K with the coordinates in the NW corner of the coffin S35' W9". The elevation at the base of the coffin in the NW corner was 728.807 famsl. Skeletal items but no coffin were found. The primary individual was placed indeterminately. There were no grave goods recovered for lot #7052.

Burial lot #7053 was located in area K with the coordinates in the NW corner of the coffin S27'7" W29'2". The elevation at the base of the coffin in the NW corner was 728.553 famsl. Evidence indicates that coffin and individual were removed in a previous disturbance. There were no grave goods recovered for lot #7053.

Burial lot #7054 was located in area K with the coordinates in the NW corner of the coffin S33'10" W28'. The elevation at the base of the coffin in the NW corner was 728.463 famsl. The adult coffin's type and dimensions are indeterminate due to disturbance and truncation by the water trench. The primary individual was placed indeterminately. There were no grave goods recovered for lot #7054.

Burial lot #7055 was located in area K with the coordinates in the NW corner of the coffin S35'3" E10'9". The elevation at the base of the coffin in the NW corner was 728.406 famsl. The indeterminately sided adult coffin (? x 17") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There following grave goods for lot #7055 were recovered: 1 button.

Burial lot #7056 was located in area K with the coordinates in the NW corner of the coffin S40'3" E10'. The elevation at the base of the coffin in the NW corner was 728.36 famsl. The indeterminately sided adult coffin (39" x 18") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7056.

Burial lot #7057 was located in area K with the coordinates in the NW corner of the coffin S43'9" E7'. The elevation at the base of the coffin in the NW corner was 727.947 famsl. The coffin's type and dimensions are indeterminate due to heavy disturbance perhaps due to a water pipe trench. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #7057 were recovered: 2 women's shoe heels.

Burial lot #7058 was located in area K with the coordinates in the NW corner of the coffin S44'6" E20'3". The elevation at the base of the coffin in the NW corner was 727.443 famsl. The coffin's type and dimensions are indeterminate due to disturbance by a water trench. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7058.

Burial lot #7059 was located in area K with the coordinates in the NW corner of the coffin S40'9" E20'6". The elevation at the base of the coffin in the NW corner was 727.97 famsl. The 8 sided adult coffin (20" x 12") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7059.

Burial lot #7060 was located in area K with the coordinates in the NW corner of the coffin S36'11" E21'5". The elevation at the base of the coffin in the NW corner was 728.301 famsl. The adult coffin's type and dimensions are indeterminate due to disturbance by the water trench. It contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7060.

Burial lot #7061 was located in area K with the coordinates in the NW corner of the coffin S32'3" E20'9". The elevation at the base of the coffin in the NW corner was 728.623 famsl. The 6 sided adult coffin (24" x 14") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7061.

Burial lot #7062 was located in area K with the coordinates in the NW corner of the coffin S28'3" E26'. The elevation at the base of the coffin in the NW corner was 728.673 famsl. The indeterminately sided (due to disturbance by trench) adult coffin (72" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7062.

Burial lot #7063 was located in area K with the coordinates in the NW corner of the coffin S32'6" E25'. The elevation at the base of the coffin in the NW corner was 728.543 famsl. The 6 sided adult coffin (24" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7063.

Burial lot #7064 was located in area K with the coordinates in the NW corner of the coffin S37'5" E25'8". The elevation at the base of the coffin in the NW corner was 728.143 famsl. The indeterminately sided (due to disturbance by water trench) adult coffin (73" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7064.

Burial lot #7065 was located in area K with the coordinates in the NW corner of the coffin S41'2" E25'4". The elevation at the base of the coffin in the NW corner was 728.065 famsl. The 6 sided adult coffin (74" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7065 were recovered: glass.

Burial lot #7066 was located in area K with the coordinates in the NW corner of the coffin S45'3" E25'. The elevation at the base of the coffin in the NW corner was 727.813 famsl. The 6 sided adult coffin (72" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7066.

Burial lot #7067 was located in area K with the coordinates in the NW corner of the coffin S51' E23'7". The elevation at the base of the coffin in the NW corner was 727.913 famsl. The 6 sided adult coffin (74" x 18") contained the remains of 1 individual. Additional skeletal elements were found (lot #7145). The primary individual was face up with the head to the west facing east. The following grave goods for lot #7067 were recovered: safety pin.

Burial lot #7068 was located in area K with the coordinates in the NW corner of the coffin N12'5" W62'7". The elevation at the base of the coffin in the NW corner was 732.363 famsl. The 6 sided adult coffin (75" x 7") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7068 were recovered: cloth.

Burial lot #7070 was located in area K with the coordinates in the NW corner of the coffin N16'11" W70'5". The elevation at the base of the coffin in the NW corner was 732.683 famsl. The 6 sided adult coffin (76" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7070.

Burial lot #7071 was located in area K with the coordinates in the NW corner of the coffin N21'W69'11". The elevation at the base of the coffin in the NW corner was 733.443 famsl. The 6 sided adult coffin (36" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7071.

Burial lot #7072 was located in area K with the coordinates in the NW corner of the coffin N24'5" W69'4". The elevation at the base of the coffin in the NW corner was 733.753 famsl. The 6 sided adult coffin (72" x 22") contained the remains of 1 individual and 4 to 5 random amputated limbs (lot #7147). The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7072.

Burial lot #7073 was located in area K with the coordinates in the NW corner of the coffin N28' W68'3". The elevation at the base of the coffin in the NW corner was 733.753 famsl. The 6 sided adult coffin (64" x 16") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7073.

Burial lot #7074 was located in area K with the coordinates in the NW corner of the coffin N30'6" W66'2". The elevation at the base of the coffin in the NW corner was 733.713 famsl. The coffin's type, dimensions and contents are indeterminate due to heavy disturbance. There were no grave goods recovered for lot #7074.

Burial lot #7077 was located in area K with the coordinates in the NW corner of the coffin N36' W76'10". The elevation at the base of the coffin in the NW corner was 734.413 famsl. The 6 sided adult coffin (dimensions indeterminate due to heavy disturbance) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7077 were recovered: 1 button, cloth.

Burial lot #7078 was located in area K with the coordinates in the NW corner of the coffin N32'5" W77'3". The elevation at the base of the coffin in the NW corner was 734.183 famsl. The indeterminately sided adult coffin (72" x 14") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7078.

Burial lot #7079 was located in area K with the coordinates in the NW corner of the coffin S17'11" W139'9". The elevation at the base of the coffin in the NW corner was 732.663 famsl. The 6 sided adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7079 were recovered: cloth.

Burial lot #7080 was located in area K with the coordinates in the NW corner of the coffin N28'8" W78'. The elevation at the base of the coffin in the NW corner was 734.163 famsl. The 8 sided adult coffin (76" x 24") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7080.

Burial lot #7081 was located in area K with the coordinates in the NW corner of the coffin N9'3" W156'10". The elevation at the base of the coffin in the NW corner was 733.593 famsl. The 6 sided adult coffin (79" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7081 were recovered: porcelain.

Burial lot #7082 was located in area K with the coordinates in the NW corner of the coffin N5'11" W156'5". The elevation at the base of the coffin in the NW corner was 733.723 famsl. The 6 sided adult coffin (75" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7082.

Burial lot #7083 was located in area K with the coordinates in the NW corner of the coffin N25'4" W78'2". The elevation at the base of the coffin in the NW corner was 734.123 famsl. The 6 sided adult coffin (97.5" x 23.25") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7083.

Burial lot #7084 was located in area K with the coordinates in the NW corner of the coffin N20'11" W78'. The elevation at the base of the coffin in the NW corner was 733.743 famsl. The 6 sided adult coffin (70" x 25") held indeterminate remains. There were no grave goods recovered for lot #7084.

Burial lot #7085 was located in area K with the coordinates in the NW corner of the coffin N17'7" W78'5". The elevation at the base of the coffin in the NW corner was 733.043 famsl. The 6 sided adult coffin (74" x 19") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #7085 were recovered: hair, safety pins.

Burial lot #7086 was located in area K with the coordinates in the NW corner of the coffin N4' W64'10". The elevation at the base of the coffin in the NW corner was 732.763 famsl. The indeterminately sided (due to heavy disturbance) sub-adult coffin (11" x 8") contained the remains of 1 individual. The primary individual was indeterminately placed in the coffin. There were no grave goods recovered for lot #7086.

Burial lot #7087 was located in area K with the coordinates in the NW corner of the coffin S5'8" W87'1". The elevation at the base of the coffin in the NW corner was 733.253 famsl. The 6 sided adult coffin (78" x 2") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7087.

Burial lot #7088 was located in area K with the coordinates in the NW corner of the coffin N14'5" W87'6". The elevation at the base of the coffin in the NW corner was 733.923 famsl. The indeterminately sided adult coffin (76" x 4") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7088 were recovered: 18 buttons, 2 shoes, cloth.

Burial lot #7089 was located in area K with the coordinates in the NW corner of the coffin N17'10" W87'. The elevation at the base of the coffin in the NW corner was 734.003 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7089.

Burial lot #7090 was located in area K with the coordinates in the NW corner of the coffin N22'4" W87'. The elevation at the base of the coffin in the NW corner was 734.203 famsl. The 6 sided adult coffin (72" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7090 were recovered: 2 buttons.

Burial lot #7091 was located in area K with the coordinates in the NW corner of the coffin N25 W86. The elevation at the base of the coffin in the NW corner was 734.343 famsl. The 6 sided adult coffin (74" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7091 were recovered: miscellaneous metal (possibly a safety pin).

Burial lot #7092 was located in area K with the coordinates in the NW corner of the coffin N29'2" W86'9". The elevation at the base of the coffin in the NW corner was 734.933 famsl. The 6 sided adult coffin (74" x 23") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7092.

Burial lot #7093 was located in area K with the coordinates in the NW corner of the coffin N32'9" W86'4" The elevation at the base of the coffin in the NW corner was 735.093 famsl. The 6 sided adult coffin (74" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7093.

Burial lot #7094 was located in area K with the coordinates in the NW corner of the coffin N37'2" W86'9". The elevation at the base of the coffin in the NW corner was 735.323 famsl. The 6 sided adult coffin (72" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7094.

Burial lot #7095 was located in area K with the coordinates in the NW corner of the coffin S14'2" W113'3". The elevation at the base of the coffin in the NW corner was 732.643 famsl. The 6 sided adult coffin (76" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7095 were recovered: 1 small book.

Burial lot #7096 was located in area K with the coordinates in the NW corner of the coffin N40'7" W86'3". The elevation at the base of the coffin in the NW corner was 735.353 famsl. The 6 sided adult coffin (71" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7096 were recovered: 5 buttons.

Burial lot #7097 was located in area K with the coordinates in the NW corner of the coffin N43'8" W86'. The elevation at the base of the coffin in the NW corner was 735.553 famsl. The 8 sided adult coffin (71" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7097.

Burial lot #7098 was located in area K with the coordinates in the NW corner of the coffin N48'9" W86'9". The elevation at the base of the coffin in the NW corner was 736.353 famsl. The 6 sided adult coffin (dimensions indeterminate due to deterioration) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7098.

Burial lot #7099 was located in area K with the coordinates in the NW corner of the coffin N52'3" W86'. The elevation at the base of the coffin in the NW corner was 735.93 famsl. The 6 sided adult coffin (31" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7099 were recovered: 2 buttons.

Burial lot #7100 was located in area K with the coordinates in the NW corner of the coffin N55'9" W86'3". The elevation at the base of the coffin in the NW corner was 736.413 famsl. The 6 sided adult coffin (? x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7100.

Burial lot #7101 was located in area K with the coordinates in the NW corner of the coffin N7' W96'. The elevation at the base of the coffin in the NW corner was 734.203 famsl. The 6 sided adult coffin (69" x 14") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7101.

Burial lot #7102 was located in area K with the coordinates in the NW corner of the coffin N3'6" W96'6". The elevation at the base of the coffin in the NW corner was 733.733 famsl. The 6 sided adult coffin (75" x 14") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7102.

Burial lot #7103 was located in area K with the coordinates in the NW corner of the coffin S11'5" W94'9". The elevation at the base of the coffin in the NW corner was 733.343 famsl. The 6 sided adult coffin (75" x 19.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7103.

Burial lot #7104 was located in area K with the coordinates in the NW corner of the coffin S11'5" W95'10". The elevation at the base of the coffin in the NW corner was 732.763 famsl. The 6 sided adult coffin (72" x 19.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7104 were recovered: 1 book with miscellaneous papers.

Burial lot #7105 was located in area K with the coordinates in the NW corner of the coffin S10'6" W103'10". The elevation at the base of the coffin in the NW corner was 732.913 famsl. The 6 sided adult coffin (78" x 14") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7105.

Burial lot #7106 was located in area K with the coordinates in the NW corner of the coffin S9" W105'. The elevation at the base of the coffin in the NW corner was 733.173 famsl. The 6 sided adult coffin (72" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7106.

Burial lot #7107 was located in area K with the coordinates in the NW corner of the coffin N3'5" W105'. The elevation at the base of the coffin in the NW corner was 734.233 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7107.

Burial lot #7108 was located in area K with the coordinates in the NW corner of the coffin N3'3" W114'9". The elevation at the base of the coffin in the NW corner was 733.413 famsl. The 6 sided adult coffin (77" x 20") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #7108 were recovered: 2 safety pins, 1 metal object.

Burial lot #7109 was located in area K with the coordinates in the NW corner of the coffin S3" W114'3". The elevation at the base of the coffin in the NW corner was 733.303 famsl. The 6 sided adult coffin (27" x 20") contained the remains of 1 individual. Other skeletal elements were found in the pit fill (#7146). The primary individual was face up with the head to the west facing east. The following grave goods for lot #7109 were recovered: safety pins, cloth.

Burial lot #7110 was located in area K with the coordinates in the NW corner of the coffin S6'3" W112'2". The elevation at the base of the coffin in the NW corner was 732.773 famsl. The 6 sided adult coffin (77" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7110.

Burial lot #7111 was located in area K with the coordinates in the NW corner of the coffin S10'3" W113'. The elevation at the base of the coffin in the NW corner was 732.543 famsl. The 6 sided adult coffin (83" x 20.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7111.

Burial lot #7112 was located in area K with the coordinates in the NW corner of the coffin S13'9" W120'8". The elevation at the base of the coffin in the NW corner was 732.693 famsl. The 6 sided adult coffin (74" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7112 were recovered: 1 leather wrist brace.

Burial lot #7113 was located in area K with the coordinates in the NW corner of the coffin S10'4" W121'4". The elevation at the base of the coffin in the NW corner was 732.673 famsl. The 6 sided adult coffin (75" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7113 were recovered: cloth.

Burial lot #7114 was located in area K with the coordinates in the NW corner of the coffin S6'2" W121'. The elevation at the base of the coffin in the NW corner was 733.043 famsl. The 6 sided adult coffin (74" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7114.

Burial lot #7115 was located in area K with the coordinates in the NW corner of the coffin N'6 W123'3". The elevation at the base of the coffin in the NW corner was 733.143 famsl. The 6 sided adult coffin (73" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7115.

Burial lot #7116 was located in area K with the coordinates in the NW corner of the coffin S5'6" W129'5". The elevation at the base of the coffin in the NW corner was 733.243 famsl. The 6 sided adult coffin (77" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7116.

Burial lot #7118 was located in area K with the coordinates not taken because the burial was under water. The elevation at the base of the coffin in the NW corner was 732.553 famsl. The 6 sided adult coffin (dimensions indeterminate) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7118.

Burial lot #7119 was located in area K with the coordinates in the NW corner of the coffin S18'8" W129'11". The elevation at the base of the coffin in the NW corner was 732.393 famsl. The 6 sided adult coffin (69" x \*\*24") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7119.

Burial lot #7120 was located in area K with the coordinates in the NW corner of the coffin S18'4" W35'4". The elevation at the base of the coffin in the NW corner was 732.543 famsl. The 4 sided sub-adult coffin (25" x 9") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7120 were recovered: 2 safety pins, cloth.

Burial lot #7121 was located in area K with the coordinates in the NW corner of the coffin S15'1" W135'3". The elevation at the base of the coffin in the NW corner was 732.673 famsl. The 6 sided adult coffin (\*\*25" x 10") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7121.

Burial lot #7122 was located in area K with the coordinates in the NW corner of the coffin S12'2" W134'9". The elevation at the base of the coffin in the NW corner was 732.493 famsl. The 4 sided sub-adult coffin (26" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the east facing west. There were no grave goods recovered for lot #7122.

Burial lot #7123 was located in area K with the coordinates in the NW corner of the coffin S9'6" W127'2". The elevation at the base of the coffin in the NW corner was 733.373 famsl. The indeterminately sided sub-adult coffin (33" x 10") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #7123 were recovered: safety pins, cloth.

Burial lot #7124 was located in area K with the coordinates in the NW corner of the coffin S4'7" W135'1". The elevation at the base of the coffin in the NW corner was 733.513 famsl. The 4 sided sub-adult coffin (39" x 9") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7124 were recovered: 1 safety pin.

Burial lot #7125 was located in area K with the coordinates in the NW corner of the coffin S4'5" W139'3". The elevation at the base of the coffin in the NW corner was 733.263 famsl. The 6 sided sub-adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7125.

Burial lot #7126 was located in area K with the coordinates in the NW corner of the coffin S8'1" W138'11". The elevation at the base of the coffin in the NW corner was 733.293 famsl. The 6 sided sub-adult coffin (dimensions indeterminate) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7126 were recovered: safety pins, cloth.

Burial lot #7127 was located in area K with the coordinates in the NW corner of the coffin S11'7" W139'8". The elevation at the base of the coffin in the NW corner was 732.933 famsl. The 6 sided sub-adult coffin (28" x 10") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. An unknown grave good was recovered for lot #7127.

Burial lot #7128 was located in area K with the coordinates in the NW corner of the coffin S14'11" W139'6". The elevation at the base of the coffin in the NW corner was 732.593 famsl. The 6 sided sub-adult coffin (22" x 8") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7128 were recovered: 2 safety pins, cloth.

Burial lot #7129 was located in area K with the coordinates in the NW corner of the coffin S17'9" W144'6". The elevation at the base of the coffin in the NW corner was 733.053 famsl. The 6 sided sub-adult coffin (22" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #7129 were recovered: 1 button.

Burial lot #7130 was located in area K with the coordinates in the NW corner of the coffin S14'5" W144'. The elevation at the base of the coffin in the NW corner was 733.053 famsl. The 6 sided sub-adult coffin (24" x 9") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin . There were no grave goods recovered for lot #7130.

Burial lot #7131 was located in area K with the coordinates in the NW corner of the coffin S11'2" W143'5". The elevation at the base of the coffin in the NW corner was 732.893 famsl. The 6 sided sub-adult coffin (22" x 5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7131.

Burial lot #7132 was located in area K with the coordinates in the NW corner of the coffin S8'3" W143'11". The elevation at the base of the coffin in the NW corner was 733.423 famsl. The 4 sided sub-adult coffin (23" x 7") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7132.

Burial lot #7133 was located in area K with the coordinates in the NW corner of the coffin S4'4" W143'9". The elevation at the base of the coffin in the NW corner was 733.753 famsl. The 4 sided sub-adult coffin (26" x 8") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7133 were recovered: glass.

Burial lot #7134 was located in area K with the coordinates in the NW corner of the coffin N17'1" W146'2". The elevation at the base of the coffin in the NW corner was 734.333 famsl. The 6 sided adult coffin (77" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7134.

Burial lot #7135 was located in area K with the coordinates in the NW corner of the coffin N13'5" W146'1". The elevation at the base of the coffin in the NW corner was 733.693 famsl. The 6 sided adult coffin (75" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7135.

Burial lot #7136 was located in area K with the coordinates in the NW corner of the coffin N9'3" W147'6". The elevation at the base of the coffin in the NW corner was 733.453 famsl. The 6 sided sub-adult coffin (dimensions indeterminate) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7136.

Burial lot #7137 was located in area K with the coordinates in the NW corner of the coffin N5'5" W147'9". The elevation at the base of the coffin in the NW corner was 733.413 famsl. The 6 sided adult coffin (\*\*74" x 15") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7137 were recovered: 1 button.

Burial lot #7138 was located in area K with the coordinates in the NW corner of the coffin S1' W148'5". The elevation at the base of the coffin in the NW corner was 733.463 famsl. The 6 sided adult coffin (78" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7138 were recovered: 3 buttons, pottery, straw.

Burial lot #7139 was located in area K with the coordinates in the NW corner of the coffin S4'3" W148'6". The elevation at the base of the coffin in the NW corner was 733.733 famsl. The \* sided adult coffin (\*\*" x \*\*") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #7139 were recovered: 2 buttons, 2 safety pins.

Burial lot #7140 was located in area K with the coordinates in the NW corner of the coffin S8'3" W148'9". The elevation at the base of the coffin in the NW corner was 733.593 famsl. The 6 sided sub-adult coffin (29" x 10") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7140.

Burial lot #7141 was located in area K with the coordinates in the NW corner of the coffin S11'3" W148'10". The elevation at the base of the coffin in the NW corner was 733.413 famsl. The 4 sided sub-adult coffin (23" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7141 were recovered: ceramics/plaster.

Burial lot #7142 was located in area K with the coordinates in the NW corner of the coffin S14'5" W148'9". The elevation at the base of the coffin in the NW corner was 733.463 famsl. The 6 sided sub-adult coffin (30" x 9") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #7142 were recovered: 3 buttons.

Burial lot #7143 was located in area K with the coordinates in the NW corner of the coffin S16'10" W149'2". The elevation at the base of the coffin in the NW corner was 733.473 famsl. The 6 sided sub-adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7143 were recovered: safety pins, jewelry.

Burial lot #7144 was located in area K with the coordinates in the NW corner of the coffin N1'3" W158'1". The elevation at the base of the coffin in the NW corner was 734.123 famsl. The 6 sided adult coffin (73" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7144.

Burial lot #7146 was located in area K with the coordinates in the NW corner of the coffin \*\*\*\*\*. The elevation at the base of the coffin in the NW corner was \*\*\*\*\* famsl. The \* sided adult coffin (\*\*" x \*\*") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #\*\*\*\*\*.

Burial lot #7148 was located in area K with the coordinates in the NW corner of the coffin S24'3" E30'. The elevation at the base of the coffin in the NW corner was 728.563 famsl. The indeterminately sided (due to disturbance by water trench) adult coffin (30" x 15") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7148.

Burial lot #7149 was located in area K with the coordinates in the NW corner of the coffin S20'6" E39'5". The elevation at the base of the coffin in the NW corner was 728.763 famsl. The indeterminately sided (due to disturbance by trench) adult coffin (? x >13") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7149.

Burial lot #7150 was located in area K with the coordinates in the NW corner of the coffin S24'9" E36'. The elevation at the base of the coffin in the NW corner was 728.633 famsl. The 6 sided adult coffin (60" x \*\*18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7150.

Burial lot #7151 was located in area K with the coordinates in the NW corner of the coffin S29'1" E37'3". The elevation at the base of the coffin in the NW corner was 728.433 famsl. The adult coffin's type and dimensions are indeterminate due to disturbance by the trench. It contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7151.

Burial lot #7152 was located in area K with the coordinates in the NW corner of the coffin S33'3" E37'9". The elevation at the base of the coffin in the NW corner was 728.237 famsl. The indeterminately sided adult coffin (37" x 15") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7152.

Burial lot #7153 was located in area K with the coordinates in the NW corner of the coffin S37' E34'8". The elevation at the base of the coffin in the NW corner was 728.073 famsl. The adult coffin's type and dimensions are indeterminate due to disturbance by water trench. It contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7153.

Burial lot #7154 was located in area K with the coordinates in the NW corner of the coffin S41'10" E35'3". The elevation at the base of the coffin in the NW corner was 727.913 famsl. The 6 sided adult coffin (69" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7154 were recovered: 5 buttons.

Burial lot #7155 was located in area K with the coordinates in the NW corner of the coffin S45'7" E34'. The elevation at the base of the coffin in the NW corner was 727.813 famsl. The 6 sided adult coffin (32" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7155.

Burial lot #7156 was located in area K with the coordinates in the NW corner of the coffin S51' E33'11". The elevation at the base of the coffin in the NW corner was 727.613 famsl. The 6 sided adult coffin (42" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7156.

Burial lot #7157 was located in area K with the coordinates in the NW corner of the coffin S51' E43'6". The elevation at the base of the coffin in the NW corner was 727.223 famsl. The indeterminately sided adult coffin (69" x 19.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. The following grave goods for lot #7157 were recovered: 2 safety pins.

Burial lot #7158 was located in area K with the coordinates in the NW corner of the coffin S46' E46'3". The elevation at the base of the coffin in the NW corner was 727.383 famsl. The indeterminately sided (due to heavy disturbance by water pipe cutting through coffin) adult coffin (? x 16") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7158.

Burial lot #7159 was located in area K with the coordinates in the NW corner of the coffin S42' E43'3". The elevation at the base of the coffin in the NW corner was 727.743 famsl. The 6 sided adult coffin (72" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7159.

Burial lot #7160 was located in area K with the coordinates in the NW corner of the coffin S37'11" E44'. The elevation at the base of the coffin in the NW corner was 728.203 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7160.

Burial lot #7161 was located in area K with the coordinates in the NW corner of the coffin S33'11" E56'1". The elevation at the base of the coffin in the NW corner was 728.433 famsl. The 6 sided adult coffin (77" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7161.

Burial lot #7162 was located in area K with the coordinates in the NW corner of the coffin S29'7" E44'6". The elevation at the base of the coffin in the NW corner was 728.733 famsl. The indeterminately sided adult coffin (72" x 12") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7162.

Burial lot #7163 was located in area K with the coordinates in the NW corner of the coffin S25'4" E44'7". The elevation at the base of the coffin in the NW corner was 728.863 famsl. The 6 sided adult coffin (72\*" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7163.

Burial lot #7164 was located in area K with the coordinates in the NW corner of the coffin S20'10" E44'3". The elevation at the base of the coffin in the NW corner was 729.023 famsl. The 6 sided adult coffin (73" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7164.

Burial lot #7165 was located in area K with the coordinates in the NW corner of the coffin S15'6" E45'5". The elevation at the base of the coffin in the NW corner was 728.923 famsl. The 6 sided adult coffin (70" x 18.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7165.

Burial lot #7166 was located in area K with the coordinates in the NW corner of the coffin S10'9" E50'. The elevation at the base of the coffin in the NW corner was 728.923 famsl. The indeterminately sided adult coffin (23" x 13") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7166.

Burial lot #7167 was located in area K with the coordinates in the NW corner of the coffin S51' E19'9". The elevation at the base of the coffin in the NW corner was 727.363 famsl. The adult coffin's type and dimensions are indeterminate due to heavy disturbance by water trench) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7167.

Burial lot #7168 was located in area K with the coordinates in the NW corner of the coffin S49'8" E9'. The elevation at the base of the coffin in the NW corner was 727.813 famsl. The indeterminately sided adult coffin (28" x 10") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7168.

Burial lot #7169 was located in area K with the coordinates in the NW corner of the coffin S49'5" W2'5". The elevation at the base of the coffin in the NW corner was 728.223 famsl. The 4 sided coffin (70" x 13.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #7169 were recovered: 1 safety pin.

Burial lot #7172 was located in area K with the coordinates in the NW corner of the coffin S49'5" W10'9". The elevation at the base of the coffin in the NW corner was 728.363 famsl. The 6 sided adult coffin (75" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7172.

Burial lot #7173 was located in area K with the coordinates in the NW corner of the coffin S28'9" W20'. The elevation at the base of the coffin in the NW corner was 728.373 famsl. The 6 sided adult coffin (72" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7173.

Burial lot #7174 was located in area K with the coordinates in the NW corner of the coffin S40' W17'4". The elevation at the base of the coffin in the NW corner was 729.023 famsl. The 6 sided adult coffin (78" x 24") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7174.

Burial lot #7175 was located in area K with the coordinates in the NW corner of the coffin S39'3" W28'. The elevation at the base of the coffin in the NW corner was 729.583 famsl. The 6 sided adult coffin (74" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7175.

Burial lot #7176 was located in area K with the coordinates in the NW corner of the coffin S43'5" W27'. The elevation at the base of the coffin in the NW corner was 729.453 famsl. The 6 sided adult coffin (dimensions indeterminate due to heavy disturbance by water trench) contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7176.

Burial lot #7177 was located in area K with the coordinates in the NW corner of the coffin S39'2" W36'10". The elevation at the base of the coffin in the NW corner was 729.883 famsl. The 6 sided adult coffin (34" x 24") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7177.

Burial lot #7178 was located in area K with the coordinates in the NW corner of the coffin S34'6" W45'. The elevation at the base of the coffin in the NW corner was 730.473 famsl. The 6 sided adult coffin (78" x 24") contained the remains of 1 individual. The primary individual was placed indeterminately with the head to the west facing east. There were no grave goods recovered for lot #7178.

Burial lot #7179 was located in area K with the coordinates in the NW corner of the coffin S33'9" W53'5". The elevation at the base of the coffin in the NW corner was 731.123 famsl. The 6 sided adult coffin (76" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7179 were recovered: buttons.

Burial lot #7180 was located in area K with the coordinates in the NW corner of the coffin S29'9" W54'1". The elevation at the base of the coffin in the NW corner was 731.453 famsl. The 6 sided adult coffin (82" x 23") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7180.

Burial lot #7181 was located in area K with the coordinates in the NW corner of the coffin S29'3" W61'8". The elevation at the base of the coffin in the NW corner was 731.813 famsl. The 6 sided adult coffin (72" x 25") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7181 were recovered: bracelet with metal tag.

Burial lot #7182 was located in area K with the coordinates in the NW corner of the coffin S33'9" W61'8". The elevation at the base of the coffin in the NW corner was 731.393 famsl. The 6 sided adult coffin (74" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7182.

Burial lot #7183 was located in area K with the coordinates in the NW corner of the coffin S33'1" W70'8". The elevation at the base of the coffin in the NW corner was 731.223 famsl. The 6 sided adult coffin (78" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7183.

Burial lot #7184 was located in area K with the coordinates in the NW corner of the coffin S28'7" W70'6". The elevation at the base of the coffin in the NW corner was 732.013 famsl. The 6 sided adult coffin (82" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7184.

Burial lot #7185 was located in area K with the coordinates in the NW corner of the coffin S24'3" W70'7". The elevation at the base of the coffin in the NW corner was 732.243 famsl. The 6 sided adult coffin (76" x 14") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. An unknown grave good was recovered for lot #7185.

Burial lot #7186 was located in area K with the coordinates in the NW corner of the coffin S20'2" W70'2". The elevation at the base of the coffin in the NW corner was 732.473 famsl. The 6 sided adult coffin (76" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7186 were recovered: 5 buttons, safety pins, fabric.

Burial lot #7187 was located in area K with the coordinates in the NW corner of the coffin S11'8" W54'6". The elevation at the base of the coffin in the NW corner was 732.503 famsl. The 6 sided adult coffin (67" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7187.

Burial lot #7188 was located in area K with the coordinates in the NW corner of the coffin S15'5" W70'. The elevation at the base of the coffin in the NW corner was 732.993 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7188.

Burial lot #7189 was located in area K with the coordinates in the NW corner of the coffin S1'5" W70'5". The elevation at the base of the coffin in the NW corner was 732.863 famsl. The 6 sided adult coffin (72" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7189.

Burial lot #7190 was located in area K with the coordinates in the NW corner of the coffin S6'9" W70'4". The elevation at the base of the coffin in the NW corner was 732.893 famsl. The 6 sided adult coffin (60" x 21") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7190.

Burial lot #7191 was located in area K with the coordinates in the NW corner of the coffin S6'7" W78'8". The elevation at the base of the coffin in the NW corner was 733.193 famsl. The 6 sided adult coffin (63" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7191.

Burial lot #7192 was located in area K with the coordinates in the NW corner of the coffin S12' W76'6". The elevation at the base of the coffin in the NW corner was 733.193 famsl. The coffin's type and dimensions are indeterminate due to deterioration and possibly prior road construction. It contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7192.

Burial lot #7193 was located in area K with the coordinates in the NW corner of the coffin S15'6" W78'7". The elevation at the base of the coffin in the NW corner was 733.063 famsl. The 6 sided adult coffin (73" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7193.

Burial lot #7194 was located in area K with the coordinates in the NW corner of the coffin S19'5" W78'4". The elevation at the base of the coffin in the NW corner was 732.273 famsl. The 6 sided adult coffin (76.5" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7194.

Burial lot #7195 was located in area K with the coordinates in the NW corner of the coffin S23'5" W29'2". The elevation at the base of the coffin in the NW corner was 732.273 famsl. The 6 sided adult coffin (72" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7195.

Burial lot #7196 was located in area K with the coordinates in the NW corner of the coffin S28'2" W79'6". The elevation at the base of the coffin in the NW corner was 731.583 famsl. The 6 sided adult coffin (78" x 24") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #7196 were recovered: 8 buttons.

Burial lot #7197 was located in area K with the coordinates in the NW corner of the coffin S33' W78'9". The elevation at the base of the coffin in the NW corner was 731.393 famsl. The 6 sided adult coffin (73" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7197.

Burial lot #7198 was located in area K with the coordinates in the NW corner of the coffin S32'6" W88'. The elevation at the base of the coffin in the NW corner was 731.353 famsl. The 6 sided adult coffin (73" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7198 were recovered: cloth.

Burial lot #7199 was located in area K with the coordinates in the NW corner of the coffin S27'10" W87'9". The elevation at the base of the coffin in the NW corner was 731.753 famsl. The 6 sided adult coffin (78" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7199 were recovered: 1 button, 1 safety pin.

Burial lot #7200 was located in area K with the coordinates in the NW corner of the coffin S23'2" W87'9". The elevation at the base of the coffin in the NW corner was 732.343 famsl. The 6 sided adult coffin (71" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7200 were recovered: paper

Burial lot #7201 was located in area K with the coordinates in the NW corner of the coffin S19'3" W87'6". The elevation at the base of the coffin in the NW corner was 7323.633 famsl. The 6 sided adult coffin (81" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7201.

Burial lot #7203 was located in area K with the coordinates in the NW corner of the coffin S10'11" W86'8". The elevation at the base of the coffin in the NW corner was 733.263 famsl. The 6 sided adult coffin (? " x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7203.

Burial lot #7205 was located in area K with the coordinates in the NW corner of the coffin S4'8" W96'3". The elevation at the base of the coffin in the NW corner was 733.033 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7205 were recovered: 1 bottle

Burial lot #7206 was located in area K with the coordinates in the NW corner of the coffin S19'1" W96'3". The elevation at the base of the coffin in the NW corner was 732.303 famsl. The 6 sided adult coffin (73" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7206.

Burial lot #7207 was located in area K with the coordinates in the NW corner of the coffin S23' W96'1". The elevation at the base of the coffin in the NW corner was 732.043 famsl. The 6 sided adult coffin (75" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7207.

Burial lot #7208 was located in area K with the coordinates in the NW corner of the coffin S27'9" W96'6". The elevation at the base of the coffin in the NW corner was 731.653 famsl. The 6 sided adult coffin (76" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7208 were recovered: cloth, unknown material.

Burial lot #7209 was located in area K with the coordinates in the NW corner of the coffin S31'9" W96'5". The elevation at the base of the coffin in the NW corner was 731.483 famsl. The 6 sided adult coffin (76" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7209 were recovered: 2 buttons.

Burial lot #7210 was located in area K with the coordinates in the NW corner of the coffin S36'3" W96'11". The elevation at the base of the coffin in the NW corner was 731.093 famsl. The 6 sided adult coffin (75" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7210.

Burial lot #7211 was located in area K with the coordinates in the NW corner of the coffin S36'6 W105'6". The elevation at the base of the coffin in the NW corner was 731.123 famsl. The 8 sided adult coffin (74" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7211.

Burial lot #7212 was located in area K with the coordinates in the NW corner of the coffin S31'10" W105'6". The elevation at the base of the coffin in the NW corner was 731.323 famsl. The 6 sided adult coffin (75" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7212 were recovered: 3 buttons, 1 buckle.

Burial lot #7213 was located in area K with the coordinates in the NW corner of the coffin S27'11" W105'6". The elevation at the base of the coffin in the NW corner was 731.783 famsl. The 6 sided adult coffin (62" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7213 were recovered: newspaper.

Burial lot #7214 was located in area K with the coordinates in the NW corner of the coffin S37'2" W105'6". The elevation at the base of the coffin in the NW corner was 732.113 famsl. The 6 sided adult coffin (80" x 25") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7214.

Burial lot #7215 was located in area K with the coordinates in the NW corner of the coffin S19' W105'. The elevation at the base of the coffin in the NW corner was 732.573 famsl. The 6 sided adult coffin (78" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7215.

Burial lot #7216 was located in area K with the coordinates in the NW corner of the coffin S14'7" W104'7". The elevation at the base of the coffin in the NW corner was 732.373 famsl. The 6 sided adult coffin (72" x 19.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7216.

Burial lot #7217 was located in area K with the coordinates in the NW corner of the coffin S18'9" W113'. The elevation at the base of the coffin in the NW corner was 732.213 famsl. The 6 sided adult coffin (77" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7217 were recovered: 1 button, 1 finger ring, 1 book.

Burial lot #7218 was located in area K with the coordinates in the NW corner of the coffin S22'10" W114'. The elevation at the base of the coffin in the NW corner was 732.113 famsl. The 6 sided adult coffin (77" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7218 were recovered: 2 books.

Burial lot #7219 was located in area K with the coordinates in the NW corner of the coffin S27'3" W114'1". The elevation at the base of the coffin in the NW corner was 731.453 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7219.

Burial lot #7220 was located in area K with the coordinates in the NW corner of the coffin S32'2" W114'5". The elevation at the base of the coffin in the NW corner was 730.993 famsl. The 6 sided adult coffin (65" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7220.

Burial lot #7221 was located in area K with the coordinates in the NW corner of the coffin S36'6" W114'6". The elevation at the base of the coffin in the NW corner was 730.303 famsl. The 6 sided adult coffin (63" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7221.

Burial lot #7222 was located in area K with the coordinates in the NW corner of the coffin S45'5" W163'8". The elevation at the base of the coffin in the NW corner was 729.253 famsl. The 6 sided adult coffin (72" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7222.

Burial lot #7223 was located in area K with the coordinates in the NW corner of the coffin S41' W123'1". The elevation at the base of the coffin in the NW corner was 729.843 famsl. The 8 sided adult coffin (74" x 18.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7223.

Burial lot #7224 was located in area K with the coordinates in the NW corner of the coffin S36'6" W123'3". The elevation at the base of the coffin in the NW corner was 730.173 famsl. The 6 sided adult coffin (71" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7224.

Burial lot #7225 was located in area K with the coordinates in the NW corner of the coffin S30'6" W122'11". The elevation at the base of the coffin in the NW corner was 731.123 famsl. The 6 sided adult coffin (74" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7225 were recovered: unknown material under skull.

Burial lot #7226 was located in area K with the coordinates in the NW corner of the coffin S26'8" W122'2". The elevation at the base of the coffin in the NW corner was 731.553 famsl. The 6 sided adult coffin (77" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7226.

Burial lot #7227 was located in area K with the coordinates in the NW corner of the coffin S22'3" W122'3". The elevation at the base of the coffin in the NW corner was 731.753 famsl. The 6 sided adult coffin (79" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7227 were recovered: button, metal, cloth.

Burial lot #7228 was located in area K with the coordinates in the NW corner of the coffin S18'4" W122'2". The elevation at the base of the coffin in the NW corner was 731.983 famsl. The 6 sided adult coffin (72" x 19") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. Burial lot #7230 was located in area K with the coordinates in the NW corner of the coffin S23' W130'. The elevation at the base of the coffin in the NW corner was 731.813 famsl. The 6 sided adult coffin (75.5" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7230.

Burial lot #7231 was located in area K with the coordinates in the NW corner of the coffin S25'10" W130'8". The elevation at the base of the coffin in the NW corner was 731.583 famsl. The 6 sided adult coffin (73" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7231.

Burial lot #7232 was located in area K with the coordinates in the NW corner of the coffin S31'6" W131'. The elevation at the base of the coffin in the NW corner was 731.253 famsl. The indeterminately sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7232.

Burial lot #7233 was located in area K with the coordinates in the NW corner of the coffin S44'3" W128'8". The elevation at the base of the coffin in the NW corner was 730.403 famsl. The 6 sided adult coffin (67" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7233.

Burial lot #7234 was located in area K with the coordinates in the NW corner of the coffin S40'9" W131'11". The elevation at the base of the coffin in the NW corner was 729.583 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7234 were recovered: 6 buttons, cloth, safety pins.

Burial lot #7235 was located in area K with the coordinates in the NW corner of the coffin S44'8" W132'3". The elevation at the base of the coffin in the NW corner was 729.293 famsl. The 6 sided adult coffin (81" x 30") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7235 were recovered: safety pins.

Burial lot #7236 was located in area K with the coordinates in the NW corner of the coffin S44'2" W140'9". The elevation at the base of the coffin in the NW corner was 729.553 famsl. The 6 sided adult coffin (74" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7236.

Burial lot #7237 was located in area K with the coordinates in the NW corner of the coffin S30'11" W135'5". The elevation at the base of the coffin in the NW corner was 731.623 famsl. The 4 sided sub-adult coffin (24" x 6.5") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7237.

Burial lot #7238 was located in area K with the coordinates in the NW corner of the coffin S28'3" W135'3". The elevation at the base of the coffin in the NW corner was 731.713 famsl. The 4 sided sub-adult coffin (21" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7238.

Burial lot #7240 was located in area K with the coordinates in the NW corner of the coffin S21'7" W134'10". The elevation at the base of the coffin in the NW corner was 731.943 famsl. The 4 sided sub-adult coffin (22" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7240.

Burial lot #7241 was located in area K with the coordinates in the NW corner of the coffin S41'2" W139'10". The elevation at the base of the coffin in the NW corner was 730.013 famsl. The 6 sided adult coffin (71" x 18.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7241 were recovered: cloth.

Burial lot #7242 was located in area K with the coordinates in the NW corner of the coffin S36'11" W136'1". The elevation at the base of the coffin in the NW corner was 730.663 famsl. The 4 sided sub-adult coffin (22" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7242.

Burial lot #7243 was located in area K with the coordinates in the NW corner of the coffin S33'5" W135'10". The elevation at the base of the coffin in the NW corner was 730.833 famsl. The 4 sided sub-adult coffin (33" x 6") contained the remains of 1 individual. An additional adult skeleton was found in the pit fill (lot #7027) The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7243.

Burial lot #7244 was located in area K with the coordinates in the NW corner of the coffin S21'10" W139'10". The elevation at the base of the coffin in the NW corner was 732.043 famsl. The 4 sided sub-adult coffin (24" x 8") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. The following grave goods for lot #7244 were recovered: buttons.

Burial lot #7246 was located in area K with the coordinates in the NW corner of the coffin S36'9" W140'7". The elevation at the base of the coffin in the NW corner was 730.933 famsl. The 6 sided sub-adult coffin (34" x 9") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin with the head to the west facing east. There were no grave goods recovered for lot #7246.

Burial lot #7247 was located in area K with the coordinates in the NW corner of the coffin S33'7" W140'6". The elevation at the base of the coffin in the NW corner was 731.253 famsl. The 6 sided sub-adult coffin (22" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7247.

Burial lot #7248 was located in area K with the coordinates in the NW corner of the coffin S31' W140'4". The elevation at the base of the coffin in the NW corner was 731.843 famsl. The 4 sided sub-adult coffin (33" x 7") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7248 were recovered: safety pins, 2 buttons.

Burial lot #7249 was located in area K with the coordinates in the NW corner of the coffin . The elevation at the base of the coffin in the NW corner was S28'2" W140' famsl. The 4 sided sub-adult coffin (21.5" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7249 were recovered: ribbon(?).

Burial lot #7250 was located in area K with the coordinates in the NW corner of the coffin S25'3" W140'. The elevation at the base of the coffin in the NW corner was 732.073 famsl. The 4 sided sub-adult coffin (22" x 6.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7250.

Burial lot #7251 was located in area K with the coordinates in the NW corner of the coffin S21'5" W144'10". The elevation at the base of the coffin in the NW corner was 732.443 famsl. The 4 sided sub-adult coffin (24" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7251 were recovered: safety pins.

Burial lot #7252 was located in area K with the coordinates in the NW corner of the coffin S24'8" W144'7". The elevation at the base of the coffin in the NW corner was 732.303 famsl. The 4 sided sub-adult coffin (22" x 8") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7252.

Burial lot #7253 was located in area K with the coordinates in the NW corner of the coffin S27'9" W145'3". The elevation at the base of the coffin in the NW corner was 732.343 famsl. The 4 sided sub-adult coffin (24" x 7.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7253.

Burial lot #7254 was located in area K with the coordinates in the NW corner of the coffin S30'10" W145'5". The elevation at the base of the coffin in the NW corner was 732.243 famsl. The 4 sided sub-adult coffin (23" x 7.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7254.

Burial lot #7255 was located in area K with the coordinates in the NW corner of the coffin S33'8" W145'. The elevation at the base of the coffin in the NW corner was 731.523 famsl. The 4 sided sub-adult coffin (25" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7255.

Burial lot #7256 was located in area K with the coordinates in the NW corner of the coffin S36'10" W145'8". The elevation at the base of the coffin in the NW corner was 731.453 famsl. The 6 sided sub-adult coffin (32" x 9") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7256.

Burial lot #7257 was located in area K with the coordinates in the NW corner of the coffin S37'1" W150'1". The elevation at the base of the coffin in the NW corner was 731.513 famsl. The 4 sided sub-adult coffin (22" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7257.

Burial lot #7258 was located in area K with the coordinates in the NW corner of the coffin S33'4" W150'1". The elevation at the base of the coffin in the NW corner was 731.713 famsl. The 4 sided sub-adult coffin (23" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7258 were recovered: 1 safety pin.

Burial lot #7259 was located in area K with the coordinates in the NW corner of the coffin S30'8" W150'1". The elevation at the base of the coffin in the NW corner was 732.143 famsl. The 4 sided sub-adult coffin (24" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7259.

Burial lot #7260 was located in area K with the coordinates in the NW corner of the coffin S27'9" W148'6". The elevation at the base of the coffin in the NW corner was 732.173 famsl. The 4 sided sub-adult coffin (24" x 6") contained the remains of 1 individual. The primary individual was placed indeterminately in the coffin. There were no grave goods recovered for lot #7260.

Burial lot #7261 was located in area K with the coordinates in the NW corner of the coffin S23'11" W150'7". The elevation at the base of the coffin in the NW corner was 732.403 famsl. The 4 sided sub-adult coffin (24" x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for lot #7261.

Burial lot #7262 was located in area K with the coordinates in the NW corner of the coffin S21'5" W149'3". The elevation at the base of the coffin in the NW corner was 732.673 famsl. The 4 sided sub-adult coffin (? x 6") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for lot #7262 were recovered: plaster.

Burial lot #8001 was located in Area L with the coordinates in the NW corner of the coffin S51'6" E51'10". The elevation at the base of the coffin in the NW corner was 726.36 famsl. The 6 sided adult coffin (64" x 13") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8001.

Burial lot #8002 was located in Area L with the coordinates in the NW corner of the coffin S46'7" E52'3". The elevation at the base of the coffin in the NW corner was 726.26 famsl. The 6 sided adult coffin (70" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8002.

Burial lot #8003 was located in Area L with the coordinates in the NW corner of the coffin S42'6" E52'8". The elevation at the base of the coffin in the NW corner was 726.53 famsl. The 6 sided adult coffin (76" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8003.

Burial lot #8004 was located in Area L with the coordinates in the NW corner of the coffin S38'0" E53'0" The elevation at the base of the coffin in the NW corner was 726.94 famsl. The 6 sided adult coffin (75" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8004.

Burial lot #8005 was located in Area L with the coordinates in the NW corner of the coffin S34'4" E52'7". The elevation at the base of the coffin in the NW corner was 727.09 famsl. The 6 sided adult coffin (77" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8005.

Burial lot #8006 was located in Area L with the coordinates in the NW corner of the coffin S30'2" E53'4". The elevation at the base of the coffin in the NW corner was 727.10 famsl. The 6 sided adult coffin (76" x 16") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8006.

Burial lot #8007 was located in Area L with the coordinates in the NW corner of the coffin S26'1" E53'4". The elevation at the base of the coffin in the NW corner was 727.63 famsl. The 6 sided adult coffin (71" x 11") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8007.

Burial lot #8008 was located in Area L with the coordinates in the NW corner of the coffin S21'6" E53'9". The elevation at the base of the coffin in the NW corner was 727.90 famsl. The shape of the adult coffin (75" x 18") was indeterminate due to coffin wood decay and it contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8008.

Burial lot #8009 was located in Area L with the coordinates in the NW corner of the coffin S16'5" E54'3". The elevation at the base of the coffin in the NW corner was 728.15 famsl. The 6 sided adult coffin (72" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #8009 were recovered: a pair of shoes.

Burial lot #8010 was located in Area L with the coordinates in the NW corner of the coffin S11'4" E55'0". The elevation at the base of the coffin in the NW corner was 728.53 famsl. The 6 sided adult coffin (70" x 17") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8010.

Burial lot #8011 was located in Area L with the coordinates in the NW corner of the coffin S0'3" E49'6". The elevation at the base of the coffin in the NW corner was 728.97 famsl. The coffin shape (76" x 17") was indeterminate due to coffin wood decay and it contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #8011 were recovered: wire, shredded plastic, and a circular metal tag inscribed with #28.

Burial lot #8012 was located in Area L with the coordinates in the NW corner of the coffin N4'7" E54'0". The elevation at the base of the coffin in the NW corner was 728.76 famsl. The coffin shape and dimensions were indeterminate due to disturbance and coffin wood decay and it contained the remains of 1 individual. The primary individual's position was indeterminate and the head to the west. There were no grave goods recovered for burial lot #8012.

Burial lot #8013 was located in Area L with the coordinates in the NW corner of the coffin N11'9" E50'3". The elevation at the base of the coffin in the NW corner was 729.11 famsl. The coffin shape and dimensions were indeterminate due to disturbance and coffin wood decay and it contained the remains of 1 individual. The primary individual's position was indeterminate and the head to the west. There were no grave goods recovered for burial lot #8013.

Burial lot #8014 was located in Area L with the coordinates in the NW corner of the coffin N16'2" E55'9". The elevation at the base of the coffin in the NW corner was 727.08 famsl. The coffin shape and length were indeterminate due to disturbance and coffin wood decay. The width was 17" and the adult coffin contained the remains of 1 individual. The primary individual's position was indeterminate and the head to the west. There were no grave goods recovered for burial lot #8014.

Burial lot #8015 was located in Area L with the coordinates in the NW corner of the coffin N19'5" E60'10". The elevation at the base of the coffin in the NW corner was 728.95 famsl. The 6 sided adult coffin (70" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave recovered goods for burial lot #8015.

Burial lot #8016 was located in Area L with the coordinates in the NW corner of the coffin N9'8" E60'5". The elevation at the base of the coffin in the NW corner was 728.75 famsl. The 6 sided adult coffin (70.5" x 16.5") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8016.

Burial lot #8017 was located in Area L with the coordinates in the NW corner of the coffin N12'3" E59'10". The elevation at the base of the coffin in the NW corner was 728.79 famsl. The 6 sided adult coffin (74" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8017.

Burial lot #8018 was located in Area L with the coordinates in the NW corner of the coffin N7'9" E60'2". The elevation at the base of the coffin in the NW corner was 728.15 famsl. The shape of the adult coffin (73" x 18") was indeterminate due to coffin wood decay and it contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8018.

Burial lot #8019 was located in Area L with the coordinates in the NW corner of the coffin N3'9" E59'9". The elevation at the base of the coffin in the NW corner was 728.76 famsl. The shape of the adult coffin and the width was indeterminate due to disturbance. The length was 68" and the coffin contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8019.

Burial lot #8020 was located in Area L with the coordinates in the NW corner of the coffin S0'5" E59'5". The elevation at the base of the coffin in the NW corner was 728.54 famsl. The 6 sided adult coffin (81" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #8020 were recovered: wire and cloth.

Burial lot #8021 was located in Area L with the coordinates in the NW corner of the coffin S11'11" E63'6". The elevation at the base of the coffin in the NW corner was 727.98 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8021.

Burial lot #8022 was located in Area L with the coordinates in the NW corner of the coffin S16'8" E63'6". The elevation at the base of the coffin in the NW corner was 727.99 famsl. The 6 sided adult coffin (75" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #8022 were recovered: safety pins.

Burial lot #8023 was located in Area L with the coordinates in the NW corner of the coffin S22'3" E62'11". The elevation at the base of the coffin in the NW corner was 727.89 famsl. The 6 sided adult coffin (78" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8023.

Burial lot #8024 was located in Area L with the coordinates in the NW corner of the coffin S26'6" E62'7". The elevation at the base of the coffin in the NW corner was 727.20 famsl. The 6 sided adult coffin (77" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8024.

Burial lot #8025 was located in Area L with the coordinates in the NW corner of the coffin S29'10" E62'6". The elevation at the base of the coffin in the NW corner was 726.85 famsl. The 6 sided adult coffin (73" x 21") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8025.

Burial lot #8026 was located in Area L with the coordinates in the NW corner of the coffin S34'5" E78'4". The elevation at the base of the coffin in the NW corner was 726.51 famsl. The 6 sided adult coffin (73" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8026.

Burial lot #8027 was located in Area L with the coordinates in the NW corner of the coffin S38'5" E62'0". The elevation at the base of the coffin in the NW corner was 726.66 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8027.

Burial lot #8028 was located in Area L with the coordinates in the NW corner of the coffin S37'4" E62'0". The elevation at the base of the coffin in the NW corner was 726.17 famsl. The 6 sided adult coffin (72" x 22") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave good for burial lot #8028 was recovered: rubber tubing.

Burial lot #8029 was located in Area L with the coordinates in the NW corner of the coffin S46'9" E61'8". The elevation at the base of the coffin in the NW corner was 726.13 famsl. The 6 sided adult coffin (70" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #8029 were recovered: buttons and a gold ring.

Burial lot #8030 was located in Area L with the coordinates in the NW corner of the coffin S48'7" E61'3". The elevation at the base of the coffin in the NW corner was 726.03 famsl. The length and width of the 6 sided adult coffin was indeterminate due to coffin wood decay. It contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #8030 were recovered: fragments of shoes and metal.

Burial lot #8031 was located in Area L with the coordinates in the NW corner of the coffin S48'3" E70'6". The elevation at the base of the coffin in the NW corner was 725.39 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8031.

Burial lot #8032 was located in Area L with the coordinates in the NW corner of the coffin S46'10" E71'0". The elevation at the base of the coffin in the NW corner was 725.62 famsl. The 6 sided adult coffin (72" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8032.

Burial lot #8033 was located in Area L with the coordinates in the NW corner of the coffin S43'1" E70'10". The elevation at the base of the coffin in the NW corner was 725.63 famsl. The 6 sided adult coffin (75" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8033.

Burial lot #8034 was located in Area L with the coordinates in the NW corner of the coffin S38'9" E71'7". The elevation at the base of the coffin in the NW corner was 726.02 famsl. The 6 sided adult coffin (71" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8034.

Burial lot #8035 was located in Area L with the coordinates in the NW corner of the coffin S38'8" E64'5". The elevation at the base of the coffin in the NW corner was 725.91 famsl. The 6 sided adult coffin (74" x 19") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8035.

Burial lot #8036 was located in Area L with the coordinates in the NW corner of the coffin S30'5" E72'3". The elevation at the base of the coffin in the NW corner was 726.38 famsl. The 6 sided adult coffin (67" x 18") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. The following grave goods for burial lot #8036 were recovered: safety pin fragments.

Burial lot #8037 was located in Area L with the coordinates in the NW corner of the coffin S26'9" E72'3". The elevation at the base of the coffin in the NW corner was 726.91 famsl. The 6 sided adult coffin (76" x 20") contained the remains of 1 individual. The primary individual was face up with the head to the west facing east. There were no grave goods recovered for burial lot #8037.
